

TWO WOMEN AND MAN MURDERED

Sullivan Starts English Channel Swim Today

HEROIC ACT BY LOWELL MAN SAVED MANY LIVES AT ARLINGTON

Engineer George McKee of B. & M. by Quick Thinking and Action Prevented Disaster—Passengers About to Alight in Front of Speeding Express Brought to Point of Safety

What might have been a terrible disaster with a heavy death toll being chronicled today was averted by the quick presence of mind of Engineer George McKee of this city. On a Lowell-bound B. & M. train at Arlington Heights about five o'clock last evening.

Train No. 3221, leaving Boston at 4:51 (standard time) made up of six coaches, heavily laden with men and women, most of whom are employed in Boston. In charge of Conductor Charles Cross of Lowell and an express from Lexington to Boston, figured in the remarkable near tragedy.

Upon hearing the Arlington Heights station, where the Lowell bound train makes a stop on the second track from the engine, McKee shut off the throttle to bring his train to a halt. Passengers were preparing to alight, many being on the steps of the cars, when suddenly the slowly moving train began to speed up. The surprised passengers, not realizing the reason, remained on the cars only to soon find the express tearing by them on the track nearer the depot. Had the Lowell train stopped to unload its human freight many would have been right in the path of the swiftly moving express and un-

HENRY SULLIVAN TO ATTEMPT TO SWIM ENGLISH CHANNEL TONIGHT

Lowell Boy Now at Dover, Eng., Ready to Make Attempt if Conditions Permit—Charlie Toth, of Boston, Also Prepared to Make Start

DOVER, England, Aug. 30.—Henry Sullivan, Lowell, Mass., swimmer, announced this morning that he would attempt to swim the English channel this evening if conditions permitted. Charles Toth of Boston, also intends making the attempt, and will start when the American destroyer which is to accompany the swimmer across the channel arrives from Gravesend. The tide is lower, the current slower and the temperature more favorable for the effort than at any time during the past month and the Americans are both eager to make the attempt under conditions they hope will enable them to succeed in conquering the strait which separates England and France.

Japanese Warship With Crew of 300 Lost Off Kamchatka Coast

TOKIO, Aug. 30.—(By the Associated Press)—The Japanese cruiser Nitaka went down in a typhoon off the Kamchatka coast Aug. 26, with virtually all hands, according to confirmed advices received by the admiralty. The naval report said that practically none of her crew of 300 was saved. The destroyer Maki has been ordered to the scene of the disaster. The Nitaka is a second class cruiser of 3420 tons displacement, launched in 1901.

Greeks Withstand Turkish Attacks

CONSTANTINOPLE, Aug. 30.—(By the Associated Press)—Despite their evacuation of Afium Karahissar, the Greeks are understood here to have successfully withstood so far, the attacks made upon them by the Turkish nationalist army in Asia Minor. It was in anticipation of this general attack, apparently, that General Hadjianastis, the Greek commander-in-chief, evacuated Afium Karahissar, which the Turks occupied Sunday.

Serious Menace
LONDON, Aug. 30.—(By the Associated Press)—Morning newspapers comment with grave concern on the resumption of fighting in Asia Minor between the Turkish Nationalists and Greeks, and there is a chorus of condemnation of the British government's near East policy, which the newspapers variously describe as vacillating and evasive.

The question of why Prime Minister Lloyd George and the foreign office are supporting Greece also is raised.

One paper, the Daily News, says the Near East situation is developing into a serious menace to the peace of the world.

FINANCING OF SOLDIERS' BONUS

Senate Provision Calls for
Paying it Out of Interest
on Foreign Debts

WASHINGTON, Aug. 30.—The big question of today in the minds of friends of the bonus was whether the senate provision for paying it out of the interest on the foreign debt would put it beyond the risk of presidential veto. Most of the expectation that interest payments from Great Britain would begin to come in. On the other hand, fees pointed out that from the fact the executive had been insistent that the financing of the bonus should not be made dependent upon returns from the federal debt until they were actually in hand.

HOPE OF RESCUING 47 MINERS WANES

JACKSON, Cal., Aug. 30.—Hope of rescue for the 47 prisoners of the Argonaut gold mine, ended today. Picked miners of the Mother Lode country, working with a desperate earnestness that leaves them exhausted at the end of their six hour shifts, battered away at the tough wall of slate that separates the Kennedy mine from the Argonaut at the 3500-foot level. Beyond that wall, in the lower levels of the Argonaut are the 47 who have waited helplessly since fire above them cut them off from escape at midnight Sunday.

Ten men from the United States bureau of mine rescue crew have been going down in the burning mine in relays. This morning they reported that they again had reached the 2700-foot level from which a crew was driven last night.

Unmindful of Everything
Except Fight When Struck
by Train

CHICAGO, Aug. 30.—Unmindful of everything except the fight between them, Michael Burke, a special policeman for the New York Central railroad and James Wallace, a negro whom Burke arrested for trespassing, were struck and killed by the "Westerner" New York Central express as they fought on the tracks here last night. Wallace had been arrested by Burke when found prowling around the yards.

SEN. JOHNSON LEADS MOORE BY 21,000

SAN FRANCISCO, Aug. 30.—On the face for returns early today from California's primary election yesterday, United States Senator Hiram Johnson was leading his opponent, C. C. Moore, for the republican nomination for the office, which Johnson now holds by more than 21,000 votes.

Johnson had 133,500 votes, a total of 600,000 gave Johnson 30,200 and Moore 58,425.

Senator Johnson had a lead of more than 6000 votes in his home city of San Francisco, while Los Angeles favored Moore with a margin of nearly 2000.

Montana Primaries
HELENA, Mont., Aug. 30.—Votes from only 143 of 1534 precincts in yesterday's state-wide primary had been compiled early today and on the face of this unofficial record, Wellington D. Rankin, state attorney general, had a margin of 1143 votes over Carl Kidick representative in congress, in the race for the republican senatorial nomination.

For the democratic nomination 123 precincts gave Burton K. Wheeler of Butte 2365 votes to 1015 for Tom Stout of Lewistown; 563 for James F. O'Connor of Livingston, and 644 for Hugh R. Wells of Miles City.

TRIPLE TRAGEDY AT CANTON, OHIO

Unknown Man Lay in Wait
for His Victims in Room
Off Highway

Mr. and Mrs. Frank Burns
and Mrs. Mary Nola Beat-
en to Death

Pile of Rags and Paper
Set on Fire to Hide Crime,
Police Assert

CANTON, Ohio, Aug. 30.—Two women and a man were slain and another man wounded here today by an unidentified man who lay in wait for his victims and struck them down with an iron bar as they entered the house. The slayer escaped. The dead were Mrs. Freda Burns, 27; Frank Burns, her husband, 26, and Mrs. Mary Nola, 20.

Luther Armstrong, 22, suffered a severe scalp wound from a glancing blow.

WOMAN DESPONDENT

Miss Collins Commits Suicide
as Result of Brooding Over
Father's Ill Health

Despondent over the ill health of her aged father, Miss Evelyn M. Collins, aged 37 years, a well known and popular young woman, who for a number of years had been employed as a helper at the Lawrence Mfg. Co., committed suicide at her home, 493 Pawtucket street, this morning.

Shortly after 5 o'clock a sister of deceased, Miss Ella M. Collins, heard a noise which seemed like the fall of a heavy object and after investigating found her sister Evelyn lying on the front room floor with a bullet wound in her head. The young woman was unconscious but still alive and a hurried call was sent in for Dr. G. O. Lavallee, who upon his arrival pronounced the young woman dead.

Medical Examiner T. B. Smith was notified and after investigating the

ALL NIGHT COAL CONFERENCE

But One Obstacle Prevents
Resumption of Hard Coal
Production

Dispute Over Length of Time
Through Wage Contracts
Would Run

WASHINGTON, Aug. 30.—(By the Associated Press).—When spokesmen for the anthracite operators and miners' union left Washington in the early morning hours today after all night conference, the only obstacle remaining to prevent resumption of hard coal production was said to be a dispute over the length of time through wage contracts would run.

The mine operators, who have stoutly insisted that arbitration be adopted to fix permanent future wage levels, a proposal which John L. Lewis, the miners' chief, has flatly refused to consider, apparently abandoned the position in the informal discussions last night and early today after Senators Pepper and Reed of Pennsylvania had given their assurances that congress intended setting up a coal commission this winter, which would officially investigate all phases of the industry and perhaps, in some measure, lay down a basis for wage payments.

The employers did, however, insist

AUDITORIUM COMMISSION NAMES WILSON CHIEF MARSHAL

Capt. Percy J. Wilson to Have Charge of Dedictory Arrangements for New Memorial Building—Many Features Added to Program—Committee Votes Special Invitation to Lieut. Charette, Hero of Santiago Harbor

At a meeting of the Memorial Auditorium Building commission, held yesterday afternoon, it was voted unanimously to appoint Capt. Percy J. Wilson chief marshal for the dedicatory exercises of the Auditorium. The chief marshal will have charge of all the activities both inside and outside of the building having to do with the convenience, comfort and safety of the Assembly.

The appointment of Capt. Wilson is immediately heralded for all as an extremely wise choice. It is the unanimous opinion that he is well qualified to undertake the important work that will fall on the shoulders of the chief marshal. His wide experience in military matters will stand him in good stead, together with his natural ability in handling crowds and big affairs of this kind.

Chief Marshal Wilson will have charge of a police detail, acting through the superior police officer delegated to this all important mission of preserving order. The system of carriages for the delivery of the attendance and the establishing of a parking system on Brown, Stackpole, Fayette, High and Howe streets will be left entirely to Capt. Wilson's hands. He will devise an efficient system for the pulling of all carriages and it is confidently expected that the traffic problem, which will be huge, will be taken care of without the slightest confusion. A detail of firemen, in dress uniform, will be in his charge and will be stationed in all parts of the building to give the vast audience a feeling of safety and security. As is the case of the police detachment, the firemen will be under the direct orders of a commissioned officer.

To facilitate matters Capt. Wilson will have command of a corps of assistants whose duties will be to take care of the lights, lighting effects,

CAPT. PERCY J. WILSON,
Chief Marshal of the Auditorium
Dedication.

LOWELL'S PLAYGROUND SEASON WAS OFFICIALLY CLOSED TODAY

Exercises at Moody School, South Common and Morey School—Parents and Friends of Children Enjoy Elaborate and Well Balanced Programs

The local 1922 playground season was officially closed today when the children of the Moody school, Fayette street, and Moody school assembled in the auditorium of the latter institution at 10 o'clock this morning, where, in the presence of a large gathering of relatives and friends, the concluding exercises were conducted. At 2 o'clock on the South common, the Butler and South common representatives gathered on the spacious playground to do their part in making their final effort a success, while the Morey, Washington and Walker communities held their exercises jointly at the Morey school at 3 o'clock. The Varnum, Lakeview avenue, Alton street, North common and Greenhatch grounds completed their seasons with appropriate programs yesterday afternoon.

At the Moody school this morning an extensive program of song and dance occupied the greater portion of the forenoon. The various numbers competently arranged by supervisors.

Miss Gertrude Lyons, Miss Esther Stacks, Miss Lucy Desmond, Miss Beattie Sullivan and Miss Mary Dowd, were flawlessly rendered by the young playgrounders who displayed a marked adaptability to the various roles assigned them. Practically every event on the interesting and entertaining program was productive of such applause as to call for a well-merited encore. The musical and dance specialties were especially well received and reflected great credit on the teaching qualities of those in charge. The complete program follows:

Irish jig and Highland ring, Mary McQuinn; piano solo, Elizabeth Taylor; violin solo, Jack Taylor; costume dance, Catherine Rynd; piano solo, Grace Walker; piano solo, Cecilia Atwood; popular airs, Louise Smith; piano solo, Emma McEntee; duet, Billy Shaw and George Semple; piano solo, Lawrence Sullivan; piano solo, Helen Kelley; solo, Ellen Brown; solo, Queens

France to Withdraw Delegates
PARIS, Aug. 30.—(By the Associated Press).—The feeling was expressed in reparations circles this afternoon that the French government would withdraw its delegates on the reparations commission, preparatory to independent action on the German indemnity question. This belief arose, it was said, from the fact that the German delegates here had advanced no new proposals acceptable to France.

Legs Is Legs, and Sennett Will Show 'Em

IRENE CASTLE, HER CURRENT RELEASE IS "SLIM SHOULDERS." SHE WILL NOT MAKE ANOTHER MOVIE FOR A WHILE, SINCE SHE WAS HURT IN A FALL WITH HER HORSE.

WANDA HAWLEY, A STAR IN HER OWN RIGHT, SHE WILL BE MILTON SILL'S LEADING WOMAN IN "BURNING SANDS," ANOTHER DESERT LOVE FILM DIRECTED BY GEORGE MEEFORD.

NEW YORK, Aug. 30.—Legs are coming back into the movies. Legs are what take the well-known Tired business man into the theatres. Legs are what bring dollars into the box office.

Dollars in the box office are what movie producers, distributors and exhibitors are in the business to get. Mack Sennett, who made enough money producing leg pictures to stop making them when silly censors began to proclaim that a leg in motion pictures was a mere incidental evil, than a leg in the flesh on the stage, is responsible for the re-introduction of the bathing girl to the screen. The recurrence of the movie leg occurs in "The Shrine of Araby," a

the stage is given by Sennett as the reason for the revival of girl-show pictures. Few musical comedies are on the road because of the cost of transportation.

George M. Cohan, the Shuberts, Hammerstein and others have made money with musical comedies not because of the music or the comedy contained in the shows so much as because of their selection of chorus girls.

Protest against the girl-show movie was based on the assertion that they were not artistic, that they did not advance the standard of pictures.

That's very probably true, but where's the art in a musical comedy that contains little music and little comedy?

Winter changes to spring without a break in the film or a movement of the camera in "The Siren Call."

When Irvia Willat was directing the picture in the Yosemite valley he noticed that the snow melted very rapidly when the sun came out.

The scenario called for a spring scene. He had the camera set up after a snowfall one day and shot a scene.

As the snow melted more film was exposed. After several days the snow had melted entirely. This change in seasons is shown in a few seconds on the screen. Yes, nature's a wonderful thing, in the movies.

The Movieforum in Lloyd Hamilton has used the same cutaway cut in his comedies for eight years.

"The Inheritors," magazine serial by L. A. R. Wyllie, is to be filmed by Goldwyn.

"Don't wear yourself out waving a palm-leaf fan," is the advice of Mr. Royal S. Cleveland, New York health commissioner, in a pictorial interview for the next Movie Chat.

Bessie Love will be leading lady in "Prince Courageous."

Jack Mithall will be featured in a series of pictures called "Tales of the Fish Patrol."

Al Johnson says he wants to be known as "the Harold Lloyd of the stage" since he saw "Rainbow's Boy."

Keneth Hudson and Marie Prevost will have featured roles in the film version of E. Scott Fitzgerald's "The Beautiful and Damned."

Oscar Reining, explorer, is working as an extra in "The Stranger's Banquet" to obtain experience for a career as a director.

Lawson Good is directing himself in the leading role of "The Flying Dutchman."

MILLAN AND MAILINS REACH CALCUTTA

CALCUTTA, Aug. 30.—Captain Mac-Millan and Lieut. Mailins, British aviators, arrived this morning from Chicago, where they underwent hospital treatment following their rescue from their wrecked airplane, on which they drifted at sea for 50 hours.

They still are suffering acutely from the effects of their privations, especially the continued exposure to the blistering sun and sores caused by insect bites. They are able to walk, but only with difficulty.

Both hope to make another attempt to circumnavigate the globe by air next year.

GRANT'S TOMB, NEW YORK CITY

A drive through New York's boulevards
Is quite a treat today
Grant's Tomb is one of many sights
Long Hudson River way

Berton Braley's Daily Poem

IT'S MUTUAL

When He and She agreed to wed,
According to Dan Cupid's whim,
Her friends say, as they always said,
"I don't see what she sees in him!"
While his friends tear her limb from limb,
He's made a blunder, they aver,
And so they say, with acrid vim,
"I don't see what he sees in her!"

"He hasn't any business head,"
"He's much too fat," or else "Too slim,"
"Why didn't she take Bill instead?"
"I don't see what she sees in him!"
And his companions, dour and grim,
Greet all her actions with a slur,
And sigh, while tears their eyes bedim,
"I don't see what he sees in her!"

"My dear, her senses must have fled,
He isn't in the social swim."
"Her future fills me full of dread,"
"I don't see what she sees in him!"
"She has no style," "She isn't trim,"
"This marriage ought not to occur,"
"Poor Jack"—or Mike or George or Jim—
"I don't see what he sees in her!"

Envoy
They'd cry, were he a scaphim,
"I don't see what she sees in him!"
They'd sigh, what'er her character,
"I don't see what he sees in her!"

National Forces Capture 700 Republicans

CASTELSHANE, Aug. 30.—Seven hundred Belfast refugees, believed to be republicans, were captured yesterday by National troops in Castle Monaghan, near here. The Nationalists surprised the guard of the castle and upon entering, found nearly all the occupants asleep. Large quantities of arms, ammunition and bombs were found hidden in some dugouts nearby. The prisoners were taken to Dundalk.

GET AN EDUCATION BY RADIO

Educators of the country are looking forward to the time when school will be kept by radio.

That this time is not far distant may be gleaned from the fact that already college lectures and other educational talks are being delivered by radio. These, at present, are free. But, according to some of the pioneers in this activity, a radio correspondence course could be devised for those who pay.

One of the leaders in the establishment of a lecture course by radio is Prof. William O'Leary Thompson, president of Ohio State University at Columbus, O. When radio first gained popularity last spring, Thompson had a transmitting set installed at the college.

PROF. THOMPSON BROADCASTING A LECTURE.

ago and began delivering educational talks free.

From this start may develop a nation-wide educational program for those boys and girls who must stay home and work. For this purpose the United States bureau of education will soon issue the most important source on which the youth of America will depend for a higher education.

For, say college leaders, radio educational courses will have to be centralized under the direction of federal educational authorities. Thus there will be no duplication of effort and broadcasting of lectures will be distributed evenly throughout the country.

This is no wild dream, say these educators, and for proof they point not only to the voluntary lectures being broadcast by some of the larger colleges, but to the various educational activities of the government. The public health service and the bureau of education will soon open a regular broadcasting service for dissemination of information and other educational matter. The department of labor is planning a labor radio news service.

The department of commerce has just authorized its 33 co-operating offices to arrange with local broadcasters for the release of all cable and radio information on foreign markets. This will be more in the form of a world survey, commercial, financial and political.

ALLIANCE INVOLVES MILES OF CABLE

An alliance involving over 50,000 miles of submarine cable has just been entered into by the Postal Telegraph Commercial Cable System and the All America Cables, Inc. This alliance not only provides for an exchange of traffic between the two companies but also that the officers and agents of each shall act as representatives for the other. The news of this new combination was given out by Clarence H. Mackay, president of the Postal Telegraph Commercial Cables.

In part Mr. Mackay says, "This agreement is a most forward step in cable communication because it creates the greatest and most comprehensive American cable system, extending from north to south from all parts of the United States and Canada to Central and South America, and from east to west from Europe to the Orient, involving a total cable mileage of 50,000 miles, and marks an epoch in the development of cable communication in that it is distinctly an all-American system."

"The parties of the new contract will retain their separate corporate bodies but the agreement will make for greater harmony so that actual messages will be handled by the two companies with much more celerity than would be possible by a single organization."

SHOTS FIRED IN DRUG RAID

Boston Police Inspector
Wounded — Morphine
Seized — Man Arrested

Another Leaped From Win-
dow 30 Feet to Roof of
Shed and Escaped

BOSTON, Aug. 30.—Four shots were fired, Inspector Caverly of the drug squad and the police department was wounded and morphine and cocaine were seized during raid in the East Boston district early today. Luigi Longardi, arrested, was charged with illegal possession and sale of narcotics and assault on the officer with intent to kill. The inspector was wounded in the right hand. Longardi is known as one of a ring of international drug peddlers, the police said. Inspectors, assisted by a woman posing as a drug addict, who had purchased morphine and cocaine from Longardi with marked money, went to Longardi's room. Information that he was under arrest, the man put out the light and fired four shots, officers said. A scuffle ensued in which Longardi was sub-
dued, but another man leaped from a window thirty feet to the roof of a shed and escaped.

MATRIMONIAL

Mr. Albert P. Dacey of this city and Miss Anna A. Hamilton of East Boston, were united in the bonds of matrimony at St. Mary's Star of the Sea church, in East Boston Aug. 22, the officiating clergyman being the pastor, Rev. William A. McDonough. The ceremony was performed at a nuptial mass during the service appropriate singing was rendered by the choir under the direction of Miss Catherine Powers, who also presided at the organ, the soloist being Miss Mary Boudreau. Miss Mary Hamilton, a sister of the bride, acted as bridesmaid, while the best man was Mr. Joseph Smith of this city. The bride wore white satin with train and veil of tulle caught up with orange blossoms and she carried bridal roses. The bridesmaid was attired in a gown of peach and apricot tinted tulle with hat to match. At the close of the ceremony a wedding breakfast was served at the home of the bride's parents. After a short tour of the White mountains Mr. and Mrs. Dacey will make their home at 8 Grove street, this city. The bride is well known as an alumna of Hutton high school, while the groom is a World war veteran and a member of Co. K, 104th Inf. in attendance at the wedding was Rev. Bro. Vincent of Mt. St. Joseph's college, Baltimore, a brother of the bride.

FOOTBALL PRACTICE

There will be a practice session for the O.M.I. Cadet football squad at the Cadet armory tonight at 8 o'clock.

Next Week, "Monte Cristo," Strindberg.

TO OPERATE ONE OF THE BAKER OIL FIELDS

MOSCOW, Aug. 30. (By the Associated Press.) A tentative concession to operate one of the largest Bakur oil fields on a contracting basis has been proposed by the Russian government to Henry Mason Day, president of the International Barnsdall corporation. Mr. Day told the Associated Press today.

FORD'S LAST YEAR'S PROFITS \$60,000,000

NEW YORK, Aug. 30.—There was made available for Wall street consumption yesterday a balance sheet of the Ford Motor company of Detroit, as of April 30, last. This statement indicated that net profits of the company in the 12 months ending that date amounted to approximately \$60,000,000.

Heroic Act Saved Lives

Continued
doubtedly would have been moved down. Instead, all were carried past the depot to safety.
It seems that an express is scheduled to reach the Arlington station about the same time as the other train, but it is supposed to stop at a distance to allow the passengers from the Lowell bound local to get off. Last night, it is said, a new engineer was in the cab of the express, and evidently he was unfamiliar with the surrounding territory. Coming into the Arlington station from the Lexington end there is a sharp curve; also a downward grade. The express was coming fast and consequently when the engineer did sight Train 3221 he could not have brought his train to a stop in time to prevent plunging through a mass of humanity, had Engineer McKee allowed his train to come to a "dead" stop.
The Lowell man, however, sensed the situation at a glance. He knew the other engineer could not stop his train. In a flash the great danger of the situation and the possible loss of life impelled him to open wide the throttle and bring his precious freight out of the path of danger.
For a moment few realized what had happened, but when the grim facts were unfolded the Lowell engineer was commended on all sides for his rare presence of mind.
Engineer McKee then resumed his journey and brought his train into Lowell at 7 p. m., where the news of the miraculous escape was told by members of the crew and several of the passengers.
Engineer McKee has been employed by the R. R. for a great many years and is regarded as one of the most capable, conscientious yet modest engineers on the road. He is 47 years old, married, and lives at 76 Maple street.

AMUSEMENT NOTES

MERRIMACK SQUARE THEATRE
The last performance of "The Song of Life" and "The Top of New York" will be given tonight.

For Thursday, Friday, Saturday of the current week Betty Compton in "The Bonded Woman" will be the main attraction on the program and "Red Hot Romance" will be the second feature on the program. Ever since vivacious Betty Compton first appeared in "The Bonded Woman" each succeeding characterization has greatly endeared her to the hearts of the motion picture public of this country. Her rare charm, beauty and her clever portrayals have given her rank among filmdom's cleverest stars. In "The Bonded Woman" Miss Compton appears as a beautiful daughter of a sea captain. Angela is loved by Leo Marvin, a member of the ship-owning firm. Her father's life is saved by her. Somers, his first mate, Angela learns that Somers has a craving for liquor. Her gratitude impels her to take an interest in him. She discovers that he does not love Marvin, and that her heart is set on saving Somers from his vice and regenerating him. A large sum of money is stolen from her father's office. She points to Somers, who makes no denial. He wanders to the South Seas with Angela. Angela finds him. How she finally brings about his regeneration is all thrillingly told in the unique love story which is bound to delight you.

"Red Hot Romance" the latest production by Anita Loos and John Emerson, is the second big feature on the bill. It has a strong cast headed by May Collins and Sidney Wilson. "Red Hot Romance" is a satire on romantic melodrama, made famous by Richard Harding Davis. The hero of the picture is Roland Stone, who is compelled by the terms of his father's will to become an insurance agent for the term of one year. As the will did not specify that he had to stay in the United States he travelled to a small kingdom in Africa where he met a virgin girl for an agent. But he did not know that for nine dollars the army would start a revolution and slaughter his clients. The authors, in keeping with the spirit of the story, have provided their hero with a series of incidents that will keep the audience laughing throughout the entire production.

B. E. KEPPIS THEATRE

In preparation for the opening of the 12th season of vaudeville at the B. E. Keppis theatre the management is given that the box office will open tomorrow morning at 9 o'clock, and will continue open until six p. m. The season starts next Monday, Labor day, with a bill of splendid acts.

TIE STRAND

Bert Lytell in "The Face Between," a strong dramatic effort, and James Oliver Curwood's great northwest story, "The Broken Silence," combine in a picture program well worth consideration. It will be shown for the last time today at The Strand. Canadian northwest stories of Curwood's offering, and you must know that the name of Lytell is synonymous with good pictures.

A moving adventure melodrama is Gouverneur Morris' new photoplay, "Yellow Men and Gold," which is to feature the program for the week-end, starting with matinee on Wednesday. It has every ingredient of a thrilling story that sets the blood to coursing and the heart to racing. And it has a wonderfully good cast. The picture presentation, headed by Helen Chadwick and Richard Dix.

Fred Stone in "The Duke of Chinnoy Butte" is a regular western drama, with a regular cow boy star enacting the principal role. Lots of action, some romance, and a corking love romance make it most acceptable. The usual comedy and weekly will surely add to the worth of the week-end attraction.

REGISTRATION SESSIONS

As a result of two registration sessions held yesterday afternoon and evening in city hall 153 voters have been added to the lists. This number, added to 121 registered at Monday's session brings the total up to 276 for the week. The registration by wards is as follows: Ward 1, 19; ward 2, 12; ward 3, 27; ward 4, 22; ward 5, 7; ward 6, 37; ward 7, 12; ward 8, 6; ward 9, 23. Total, 153.

LEG INJURED
John Denward of 37 Dutton street, who has left leg injured while on his work shortly after 11 o'clock this forenoon. The ambulance removed him to the Lowell corporation hospital.

Refused Increase, 1200 Men Strike

SCOTTDALE, Pa., Aug. 30.—Refused a wage advance by the United States Cast Iron Pipe & Foundry Co., about 1200 men were on strike today. The plant had been operating at capacity for some time.

Mrs. Almira Chapman Dies at 102

BROCKPORT, N. Y., Aug. 30.—Mrs. Almira Chapman, 102 years old, is dead at her home here. She was active in Red Cross work during the World war.

13 of 322 Aboard Steamer Rescued

SANTIAGO, Chile, Aug. 30.—(By the Associated Press.)—Latest wireless reports from the cruiser Cienfuegos are to the effect that only 13 persons of the 322 aboard the steamship Italia were rescued when the vessel sank off Coquimbo yesterday. The Chacabuco is rushing the survivors to Coquimbo. It is understood the Italia was carrying a large number of laborers and their families to the nitrate plants of Chuquibambilla. The other passengers were traders. The Italia was caught in a severe gale at 2.30 o'clock in the afternoon and was capsized by the heavy seas due to her overloaded condition wireless reports said.

To Destroy Former German Sub. Cruiser

PORTSMOUTH, Va., Aug. 30.—The U-111, former German submarine cruiser credited with having sent at least 10 ships to the bottom of the Atlantic, is to be buried in the open sea today. She will be taken 20 or 30 miles off the Virginia Capes, where her valves will be opened and she will be allowed to sink in about 300 feet of water, which, in the language of a navy officer, will be sufficient for her "peaceful and permanent extinction."

Commemorate Ratification of Mandate

WASHINGTON, Aug. 30.—Ratification of the Palestine mandate was commemorated here last night at a mass meeting attended by more than 5000 Jews. Former Judge Bernard A. Rosenblatt, of New York, who has just returned from Palestine, described with optimism the prospects of Jews who have immigrated to that country from the United States and England.

DO YOUR CHILDREN Show Symptoms of Worms?

Do they sometimes eat with abnormal hunger and again show loss of appetite? Are they fretful and irritable at times, with occasional fever and sleep at night, gritting the teeth and tossing restlessly?
If so, look out for worms, so common in young children, and often the undetected cause of the safety to parents. For more than 100 years the true "L.F." Medicine has proved a valuable remedy for worms in childhood, and we have many letters from mothers who have testified to its merit as a safe, sure remedy for worms in children. Large bottle 50 cents at your dealer's. L.F. MEDICINE CO., Portland, Maine.

COSGRAVE FOR DAIL PRESIDENT

Collins' Death Has Strengthened Determination of
Free State Government

No Settlement of Present
Rebellion Except on Terms
of Unconditional Surrender

LONDON, Aug. 30.—Michael Collins' death has strengthened the determination of the provisional Irish Free State government that there can be no settlement of the present rebellion except on the terms of unconditional surrender, says the Daily Mail's Dublin correspondent. The writer adds that he learns there is not a member of

WILLIAM T. COSGRAVE.

the government who would not rather resign office than be a party to any settlement with Eamon de Valera which did not mean complete surrender.

William T. Cosgrave, he understands, will become president of the Dail Eireann and premier. Another decision, namely, that no minister shall hold two posts in the cabinet. This means that Mr. Cosgrave will become Dail president and premier, he will relinquish the ministry of local government.

American Tourists Held Up

DUBLIN, Aug. 30.—(By the Associated Press.)—American tourists attempting to see Ireland, return to Dublin deeply disappointed and strong in their condemnation of conditions in the provinces.
Recently, despite the advice given them at their hotel here, two young Americans picked up an automobile and started out sightseeing. They had reached a point only 20 miles from Dublin, when they were halted by troops presumably republicans.
They showed their American passports, but according to their account, these brought them nothing but laughter, and they were forced to alight from their car, which the soldiers appropriated and the priests made their way to the nearest town in a donkey cart.

LOWELL MAN HONOURED

Willis H. Bowles, a prominent member of Lowell lodge, 251, Knights of Malta, has been appointed chairman of the executive committee of the grand commandery of the Knights of Malta. The appointment, which is considered quite an honor for Lowell, was made by the general commander of the order.

Next Week, "Monte Cristo," Strindberg.

MAN FROM INDIA TELLS OF STARVATION THERE

Prof. Sathendra Nath Ghose, who is in this country, speaking funds with which to aid the starving peoples of his native land, India, addressed an audience last night in A.O.H. hall, putting before it the sufferings of his people. The meeting was held under the auspices of Central Council, A.O.H. which will conduct a tag day here for Indian relief on September 16.

The meeting was called to order by Michael J. Monahan, president of the local branch, who introduced Prof. Ghose as the speaker of the meeting.
At the conclusion of his address there were remarks by D. J. Murphy, P. J. Mahoney, M. J. Sharkey, Stephen Flynn, John Barrett and Michael J. Monahan. An organization was then effected as follows, to be known as the committee on Indian relief: President, Michael J. Monahan; secretary, John Barrett and treasurer, William Davenport; executive committee, James J. McManus, Thomas Daly, Michael Mitchell, Stephen Flynn, Francis J. Klerke, John McInerney, Michael McDermott, John Calkins, John J. Kennedy, Daniel Murphy, Joseph Giverty, M. J. Shaughnessy, Thomas Larkin, Philip Harley, Patrick Brosnan, Dennis Brassill, Thomas Horan. Several sub-committees were also appointed to conduct the tag day.

Woman Despondent

Continued
once stated that the young woman had used her father's revolver to end her life. The gun, which Mr. Collins used at his work as a nightwatchman for the Daniel O'Connell Co., was an old-type weapon, which when not in use, was kept in a closet in the kitchen. Dr. Smith stated that as far as he could learn the young woman had been brooding for some time over the ill health of her father and her despondency was such at times as to worry the other members of the family.
Deceased is survived by her aged father, Mr. James C. Collins, three sisters, Mrs. Josephine Bolwert of St. Etienne, Que., Mrs. Thomas Henry of Roxbury and Miss Ella M. Collins of this city; four brothers, Frank, William and James Collins, all of this city and Armand Collins of Marlboro. The body was removed to the funeral parlors of Undertakers Amador, Archambault & Sons in Merrimack street.

Triple Tragedy at Canton, O.

Continued
blow, Armstrong fled from the house and reached the police.
When Armstrong and Mrs. Nola entered the Burns home where Mrs. Nola resided, a man hiding in a room just off the hallway, told Mrs. Nola and then struck Armstrong with the iron bar, according to Armstrong's story, to the police.
Authorities are holding Armstrong pending further investigation.
The bodies of Mrs. Burns and her husband were found in adjoining rooms. The heads of all the victims were crushed.
The iron bar used by the slayer was found just outside the door.
Police say Mrs. Nola and her husband had separated and that he has been living in Benton Harbor, Mich. A note was found in a room in the house, evidently having been started by the slayer with intent to hide evidence of his crime, the police assert.

Outrages in R. R. Strike

Continued
similar steps by C. & A. men at Roadhouse, Ill., and by train crews and switchmen on the Elgin, Joliet & Eastern at Joliet, Ill.
With four men held without bail on charges of murder at Gary, Ind., following the confessions of three of them to participation in the Michigan Central week at Gary, Aug. 20, Illinois and Indiana authorities continued their search for other suspects while inquiries into alleged widespread plots of sabotage and terrorism were redoubled.
A Michigan Central section foreman at Cheltenham, Mich., discovered a dynamite bomb on the right of way near that city. The discovery was made just before an express train was due to pass.

Bomb Hurled at Roundhouse

A bomb was thrown from a passing automobile at the door of the Missouri Pacific roundhouse at Barrington Cross, a suburb of Little Rock, Ark. Guards opened fire at the fleeing machine. The explosion caused no injuries.
A deputy United States marshal and five other men were fired upon at Fort Smith, Ark.
Guards patrolled the right of way of the Illinois Central at Princeton, Ky., following the destruction of part of tracks by dynamite yesterday.
A plot of replacement of the strike during the past 24 hours was the assertion of the railroad's position on the seniority question in a statement by I. H. Holden, president of the Chicago, Burlington & Quincy.

Why Are Some Women Popular,

happy, beloved and successful, while others drag out a negative existence, of no use to themselves or anyone else? Except in a few cases the answer is to be found in a state of freedom from the troubles known as "worms." The small woman radiates cheerfulness and contentment, while the ailing one repels because of her lack of these qualities. It is not necessary, however, to harbor aches and pains, and the "blues" that make one a detriment to society. The use of Lydia E. Pinkham's Vegetable Compound has brought relief to such women, and given them a new lease on life. Adv.

Golf Caddies Exact Bribes—Probe Starts

CHICAGO, Aug. 30.—The Westmoreland country club was in a turmoil today over an investigation by the board of governors into charges that golf caddies have been exacting bribes from club members and that caddies have accused golfers of cheating in their scores. The investigation has been on for two weeks, it was learned.

Body of Mrs. Barbara Taylor Found

PHILADELPHIA, Aug. 30.—The body of Mrs. Barbara Taylor, widow of Commander James Spotswood Taylor, who disappeared after the commander's death on Sunday, was found in the Delaware river today, off the Philadelphia navy yard. Mrs. Taylor disappeared from her residence in the navy yard between 10 p. m. Sunday and Monday morning. Commander Taylor was chief medical officer at the yard, and had been ill for some time.

National Army Outposts Attacked

CORK, Aug. 30.—Several National army outposts throughout the city were attacked last night. Heavy firing continued until early this morning, but no casualties were reported today.

Inquiries for Amount of Wood on Hand

BOSTON, Aug. 30.—Forest wardens were requested today by Fuel Commissioner Eugene C. Hultigan to supply information concerning the amount of cord wood available as fuel in the state. Gas companies were also asked the amount of coke on hand.

CONGRESS TO PASS COAL DISTRIBUTION BILL

WASHINGTON, Aug. 30.—(By the Associated Press.)—Attempts to amend the administration's coal distribution bill by adding provisions already rejected, republican leaders declared today it would be passed before adjournment tonight, substantially as framed.

After the announcement by Representative Johnson, republican, South Dakota, and others that they would endeavor to get through an amendment giving the president authority to take over railroads and mines which failed in public service, Representative Anderson, republican, Minnesota, upset party plans by making public the text of an amendment for creation of a federal coal buying and selling agency.

The latter plan was first suggested by the president in his address to congress, but in drafting the distribution bill, the interstate commerce committee abandoned it, announcing at the same time that it had acted with presidential approval.

Leaders said the Johnson and Anderson proposals would be thrown out on points of order as not germane to the bill itself, and that both would be defeated if put to a vote.

SPLIT IN NEW LIFE CHURCH

MOSCOW, Aug. 30.—A split already is developing in the recently formed New Life church, Bishop Antonin, one of the leaders of the organization which took over the management of the church from former Archbishop Tikhon, is forming a new group called the Church of Regeneration.

Thirty-seven dissenters from some of the principles adopted at the recent conference of the New Life church, especially that sanctioning the marriage of bishops,

FOREST CONSERVATION

Federal Government Has Purchased 440,000 Acres in White Mountains

KEENE, N. H., Aug. 30.—The federal government has already purchased 440,000 acres of forest land in the White Mountains, and 1,600,000 acres in the southern Appalachians, said R. S. Kellogg, chairman of the national forestry program committee, speaking today before the annual meeting of the Society for the Protection of New Hampshire Forests.

Mr. Kellogg named fire prevention, forest planting, forest research and investigation and purchases of timberlands by the national, state and municipal governments as the four cardinal points in an adequate program of forest conservation.

"The past two years," he asserted, "have seen notable progress in public appreciation of the necessity for making the timberlands of the United

States continuously productive, and tangible results are being steadily achieved upon the basis of federal leadership and co-operation with the states.

NEW REIGN OF TERROR THROUGHOUT RUSSIA

RIGA, Aug. 30. (By the Associated Press.)—Revival by the Russian soviet government of the old czarist "administrative exile" has restored to the political police the "chekars" successors—the power of dealing secretly with the soviet's enemies.

The series of sudden arrests and exile without trial of scores of persons unfriendly to the soviet regime or of those suspected of having counter-revolutionary tendencies, has created a new mild reign of terror throughout the country, according to advices reaching here.

Exile is understood to be limited to three years under the new decree.

Many of the exiles are being sent to the same places in Siberia where the bolshevik leaders themselves were exiled under the czarist regime, according to information received here.

Next Week, "Monte Cristo," Strand

Irregulars Threaten Hunger Strike

DUBLIN, Aug. 30.—The disturbances yesterday in Mayborough prison where between 600 and 700 Irregulars are interned occasioned the issuance of the following official army report late last night. "Yesterday (Monday) a tunnel was discovered by the authorities in Mayborough prison and three irregular prisoners were found trying to escape. As a result of the discovery of the tunnel disciplinary measures were enforced. An ultimatum later was sent to the governor of the prison by the leader of the Irregular prisoners in which it was stated they would go on hunger strike at noon today."

Pope's Auto in Diplomatic Class

ROME, Aug. 30.—(By the Associated Press.)—After trying out in the vatican gardens the automobile presented to him by the Milan archdiocese, Pope Pius has had it duly registered by the Italian authorities. The government officials were rather embarrassed in fulfilling the papal request, as no previous pope ever owned a motor car. After lengthy discussion of the case, they included the car in the diplomatic class, and it consequently bears the license number CD (Corps diplomatique)—55-325.

—Photo by Rounds

Playground Season Closed

Douglases; piano solo, Alice Sheehan; shoemaker's dance, junior boys and girls; violin solo, Alice Finn; dance of the nations, Catherine Waterman, Mary Devine and Winifred Bridges; clog dance, junior boys and girls; novelty greeting, junior boys and girls; novelty dance, Bernadette and Madeline Finigan; butterfly dance, Bertha McGovern; solo, "California," Anna McGovern; piano selection, Catherine Noonan; group songs and pledge of allegiance.

An added feature at the conclusion of the above exercises was the presentation of medals and loving cups to the winners of the playground tennis championship. The presentation was made by Mr. Arthur Sullivan, head supervisor and the lucky winners suitably responded to the calling of their names.

The South Common

The South common and Butler exercises were held at 3 o'clock in the afternoon with a large and appreciative audience in attendance.

The scenery of the day and the youthful actors surrounding the group of performers transformed the otherwise quiet afternoon into one of bustling activity. For two hours, the exhibition occupied the center of the South common stage and the little actors were the center of all eyes as they danced and sang and played as only care-free children can. To the instructors, Miss Mildred Collette, Miss Anna H. Rounie, Miss Helen Challen, Miss Anna Perkinson and Miss Blanche Boye belong the major portion of the credit for the success of the season so auspiciously concluded this afternoon. Under their capable direction, the following pleasant and comprehensive program was carried out today: Health play, "Quest For Fountain of Youth," South common girls; shoemakers' dance, Butler junior girls; Irish Hill, Mary Higgins; popular song, Margaret Finnegan; exhibition waltz, Helen Melanson and Ida Didenonico; dance, "Two-Step," Anna Didenonico and Helen Melanson; Sanish dance, Gladys Gleason, accompanist, Vera Gleason; abelle dance, Helen Melanson, Ida Didenonico, Marion Leonard, Gladys Gleason and Mary Lepore; jazz dance, Theresa Lepore, Ida Didenonico, Anna Didenonico and Helen Melanson; winter dance, Gladys Gleason, accompanist, South common junior girls; the folkies, Ursula Sharkey and Esther Donnelly; Highland schottische, Mary Le-

poro, Helen Melanson, Theresa Lepore, Ida Didenonico, Marion Perry and Mary Didenonico; acting up exercises, South common boys; popular songs, Helen Finnegan; dance imitation, Mary and Doris Howard.

The Morey School

The last but not the least of the closing exercises were conducted at the Morey school and met with the same marked degree of success as the previous ones. As at the last named places, Supt. Kernan of the park department and Mr. Robert Marden of the commission were present as invited guests, Mr. Marden distributing the prize awards. Misses Lillian Moran, Ellen McEvoy, Barbara Brown and Estelle Coffey, playground supervisors were instrumental in making the exercises here the great success they were.

LEGIONAIRES WILL DEDICATE SQUARES

All arrangements for the dedication of squares in honor of deceased veterans of the World war in the downtown district, which will take place today morning, have been completed, and the affair, which will be conducted under the auspices of the American Legion, will be very elaborate.

It is expected that over 100 members of the Legion including the following officers will be in attendance: Lieut. Xavier Delisle, Lieut. Hervey L. Fairbanks, Lieut. Arthur L. Egan, Lieut. Augustin, Lieut. Arthur Pelletier and Ensign Vigeant.

The Legionnaires will assemble on the North common at 2 o'clock and march to the square in honor of Private Arnold Alk. The speakers there will be Rev. Alphonse Morel, O.M.M. and Miss Veallotte Naudin-Huet, a grandniece of Lafayette.

From there the Legionnaires will move to the corner of Cabot and Merrimack streets where the square in honor of the late square in memory of Private Josephus. The square at Tremont and Moody streets will next be dedicated as Morel square, in honor of Priv. Morel. The next exercises will be conducted at the junction of Allen and Moody streets in honor of Priv. William H. Cloutier. At the above squares the speakers will be Rev. Fr. Morel and Miss Naudin-Huet.

The next stop will be at the junction of Lakeview avenue and Allen

avenue, which will be named Bolnavert square, in honor of Private Bernard Bolnavert. The speakers there will be Rev. J. B. Labossiere, pastor of St. Louis, Miss Naudin-Huet and two others whose names will be made public later.

Counting back across the river, the procession will stop at the junction of Hall, Perkins and Ward streets to dedicate Veallotte square, in honor of Priv. Alberio Veallotte. From there the marchers will journey to the corner of Moody and Riverside streets to dedicate Chiffoux square to the memory of Priv. Philippe Chiffoux.

The final exercises and the most elaborate will be conducted in front of the C.M.A.C. building at the intersection of the Cogan square will be dedicated. The speakers there will include Mayor Brown, Very Rev. J. B. Turcotte, O.M.M., pastor of St. Joseph's, Representative Henri Achin and perhaps Congressman Rogers.

All Night Coal Conference

that if work were resumed with wartime scales in effect, against the levels of which they protest, the miners would terminate on April 1, 1923, and that wages should be readjusted then. Mr. Lewis for the miners desired a much longer term through which to maintain the war-time wage rates which were in effect last April when work suspended in the anthracite region. The meeting broke up without a decision, with the arrangement to put the decision up to the responsible groups which speak for all the miners and all the employers concerned.

Move Toward Settlement
WASHINGTON, Aug. 30.—The anthracite coal strike situation took another turn toward settlement today when leaders of both sides agreed at a conference here to present to the anthracite operators and the general public committee of the miners' union for "final decisions" settlement proposals drafted by Senators Pepper and Reed of Pennsylvania.

A statement issued after the conference, which continued last night into the early hours of today, said that the tentative discussions and proposals of the two groups would be convened as early as possible.

It was agreed that the terms of the proposals should be withheld from publication, pending the meetings. These were understood, however, to provide for the immediate return to work of the miners on the basis of the wage scale and working conditions in effect last April 1, with the operators withdrawing their industrial arbitration board.

Work For All Union Miners
PITTSBURGH, Aug. 30.—There is work for every one of the 45,000 union miners in the Pittsburgh district, unless they are declared today, while they circulated word that the Pittsburgh Coal Producers' association had signed a supplemental agreement on the basis of the Cleveland settlement.

Practically every mine in this section, with the exception of some of those owned by the Pittsburgh Coal Co., was undergoing the process of opening today. Within the next two weeks, both operators and miners agreed, capacity production will be assured.

The Pittsburgh Coal Co., which recently resigned from the Pittsburgh Coal Producers' association, is operating many of its mines on a non-union basis.

FOUR RESCUED IN YORK BEACH UNDERTOW

YORK BEACH, Me., Aug. 30.—Mrs. Frances Burroughs Spofford, prominent New York society woman, and three girls, friends whose names are being withheld at the hotel where they are staying, were rescued from a heavy surf and treacherous undertow here late yesterday afternoon by Harvard students and life guards stationed along the beach.

Practically everyone of the rescuers and rescues were in weakened condition when the last of the women had been brought to the beach and given first aid. Trouble started when the raft on which Mrs. Spofford and her companions were standing started drifting seaward.

Auditorium Commission Names Wilson Chief Marshal

War Veterans and all will be in military dress. It is probable that the younger men of the organizations will be selected to serve.

Arrange For Guests

Capt. Wilson will have charge of all the guests invited by the commission. He will arrange for their coming to the city, see that they are properly met, directed and cared for during their stay in Lowell.

In short, Capt. Wilson will have charge of the entire proceedings with the exception of the exercises, which will be presided over by John H. Harrington, chairman of the Auditorium building commission.

On the stage, as far as the capacity will permit, will be seated the invited guests, dignitaries, city council and speakers of the occasion. The Choral society will be assembled in the stage gallery and flanked by a border of service men whose flags probably will be stacked against the rear partition of the gallery. The orchestra will be stationed in the front of the stage and under the baton of the leader.

All military dignitaries will be attired in full dress uniform. Judges have been invited from Lowell and vicinity and all who have been appointed from Lowell and its environs will be dressed in the robes of office. A detachment of Red Cross nurses and army nurses will occupy places on the stage and they, too, will be dressed in full service uniform.

All civilian guests on the stage are expected to be in evening clothes and doubtless many of the audience will appear in evening clothes as a mark of respect to the vice president, governor and other dignitaries.

The Flag Raising

About noon, on the day of the dedication, a squad from the different military organizations will hold a flag raising in front of the memorial building. On the first flag pole Old Glory will be hoisted to the breeches with the reverence and exercises due the banner of our country. On the second flag pole will be raised the city's flag. This will be the first time in the history of Lowell that the city has displayed a flag. It has been ordered by the commission and is expected to arrive in time for the dedication.

The pattern of the city flag will be at the pole in the stage flag. It will consist of clear white bunting with the city's seal in the center. The flag will be preserved and used on all future occasions deemed worthy for the display of the city's standard.

At sunset a similar detachment will march to the grounds to lower the flags in keeping with military regulations.

Several New Features

Several features have been added to the program previously announced. Early in the exercises a detachment from the different military organizations will give a demonstration in front of the stage of drooping of the colors.

Further along in the exercises another most attractive and impressive ceremony has been added. It will be the sounding of taps. As the notes of the taps gently roll from the bugles the lights will be lowered to give the impression of a night in camp. Silence and darkness will prevail. If there is sufficient room, a number of sentries will mount guard and patrol back and forth. This exercise will be followed by the rising of the lights to give sentries and as the notes flare from the bugles, sounding reveille, the lights will be turned full up. To further give an idea of camp life the soldiers will be seen rushing for the steaming hot coffee awaiting them in the mess tent.

The bugle calls from the main auditorium will be echoed by a corps of buglers stationed in the trophy hall.

As there is very little possibility that a sufficient number of steps will be ready in the new organ to furnish music for the occasion, musicians from Lowell under the direction of Prof. Emil J. Berles will play suitable music before the raising of the curtain and accompanying during the exercises and a grand recessional march as the audience is leaving the building. It might be well here to state that the commission hopes and expects the audience to use the nearest exit upon leaving the building.

There were understood, however, to provide for the immediate return to work of the miners on the basis of the wage scale and working conditions in effect last April 1, with the operators withdrawing their industrial arbitration board.

Practically every mine in this section, with the exception of some of those owned by the Pittsburgh Coal Co., was undergoing the process of opening today. Within the next two weeks, both operators and miners agreed, capacity production will be assured.

The Pittsburgh Coal Co., which recently resigned from the Pittsburgh Coal Producers' association, is operating many of its mines on a non-union basis.

Practically everyone of the rescuers and rescues were in weakened condition when the last of the women had been brought to the beach and given first aid. Trouble started when the raft on which Mrs. Spofford and her companions were standing started drifting seaward.

FRECKLES AND HIS FRIENDS

DEARTH OF NEW BOND FINANCING

NEW YORK, Aug. 30.—(By the Associated Press.) Investment bankers and bond dealers reported today that there was a dearth of new bond financing in prospect. For three successive weeks, new bond offerings have established low levels for the year, the total last week being only \$7,750,000 as against a weekly average of \$100,000,000 in the early spring of the year, and an average to date of something under \$50,000,000.

slump in addition to the usual mid-summer dullness. Virtually all the large industrial corporations are reported to have completed their immediate new financing and to be in no further need of cash. Second grade corporations also appear to be in a strong cash position with no immediate necessity or prospect of expanding operations, while third rate companies are not in a position to borrow further at this time.

BOOTLEGGERS ENTERS "DOORBELL FIELD"

BY EDWARD M. THIERRY
NEW YORK, Aug. 30.—The cycle of door-to-door canvassing has flopped again. The lightning rod salesman and the book agent have given way to the bootlegger's agent. Politely, with a winning smile, he walked into an office in a downtown building and said in loud, clear tones: "Can I interest any of you gentlemen in some gin, wine, brandy or whiskey—either Scotch or rye, of course?"

Whisking out a pad and pencil he stood poised, ready to write down orders with all the aplomb of a head waiter. The wheels of industry stopped abruptly; a worker with a weak heart gasped. "Great godfather, man!" he said. "You're running chances, aren't you, selling trade from strangers?" "Not at all," said the bootlegger's agent, wiping beads of perspiration from his forehead. "I have been advised that I am quite within the law. I merely take orders, you know. I have no liquor on me—not even on my breath!" He smiled cordially, and went on: "May I have your order, sir? Rye is \$10 a quart, cognac \$25.00, gin \$37.50 a case or three bottles for \$10. Sorry, but I can only sell Scotch by the case—\$110—or a quarter case for \$30. Nothing less than three bottles." Fingers itching to write down orders, he explained that somebody

SUBSTITUTES FOR COAL

Fuel Administrator to Get Inventory of Amount of Substitutes for Coal

(Special to The Sun)
STATE HOUSE, Boston, Aug. 30.—An inventory of the amount of substitutes for coal that will be available for use during the coming winter is to be undertaken at once, under the direction of Eugene C. Hultman, state fuel administrator.

Today Mr. Hultman sent letters to each local moth superintendent and each forest warden in the state, asking for data with respect to wood; and to all gas companies and other producers of coke, for information with respect to their product.

In his letter to the moth officials and forest wardens, Mr. Hultman says:—"On account of the 'suspension of production' of anthracite coal since April 1, it will be necessary for householders to use, at least in part, substitutes for domestic anthracite coal. Therefore, in order to ascertain the extent that cordwood can be relied upon to alleviate our shortage of anthracite, will you kindly furnish this office with the information required below, and also any other facts which you think would be of information in this respect."

1. How much cordwood will be available in your city or town on September 1 for use this winter?

2. How much cordwood, in addition to the amount stated above as ready for sale on September 1, do you estimate will be cut for consumption this winter?

3. List the names and addresses of all persons in your city or town who have cordwood for sale, the amount in each case, kind of wood and price, if obtainable, on board freight cars.

Gas companies throughout the state have been asked to state:

1. How much coke did you produce in August, in net tons?

2. How much coke have you on hand September 1?

3. What percentage of the coke produced by your plant will be available for domestic users?

4. What are your wholesale and retail scales of prices per ton? In discussing the use of wood and coke as a means of helping out in the period of shortage of anthracite, Mr. Hultman said today that many persons have already indicated an intention to use wood during the coming fall. Wood, he remarked, is an ideal fuel for use in the fall, when there is need for only enough heat to "take off the chill" in rooms. When the really cold weather comes, when considerable and continuous heat is needed, two cords of wood will be required to produce the same amount of heat as one ton of coal, and in addition the wood fire requires much more attention.

Coal dealers throughout the state have been asked by the fuel administrator to inform him, at once, as to the amount of cordwood they are carrying, in addition to their supply of coal.

All of this information will be compiled, and will represent a complete survey of the fuel available for domestic use, so that the fuel administrator will be able the better to solve his problem of bringing about an equitable distribution of fuel to the end that none shall be without it while others have more than is needed to carry them through to midwinter.

HOYT, also would deliver the goods—on approval.

"Sample it, and if you don't like it don't pay," he said persuasively. He worked office buildings daily, he said, and he had many lawyer customers who assured him his bread-winning methods were safe.

"Come on now, won't you gentlemen take a half case anyway?" he wheedled. "Business isn't so good today. I started at the top of this 23-story building, and here I've worked down to the third floor and I've only sold a half case. Come on, gentlemen, buy a half case—so I can go out to lunch!"

Frowning like a discouraged book agent, he put away his pad and pencil and left in a huff.

ON BLACKLIST FOR NOT TIPPING WAITERS

LONDON, Aug. 30.—What the Daily Mail regards as one of the most amazing instances in the whole history of the controversy over tipping is revealed in a communication to the paper from a prominent Londoner, who for obvious reasons, does not wish his name published.

After returning with his family from a fashionable resort in the north of England, he was discovered that both he and his wife had overlooked tipping certain members of the hotel staff, and money accordingly was sent to rectify the error. This was done before the wife received a letter from the hotel's stationery from the head waiter, saying among other things: "Your husband left without leaving gratuities for any of the staff, which is a most disgraceful thing for a man of

his standing. I feel it my duty to forward your name to my club and association so that every hotel in England, Ireland, Scotland and Wales will know your name and also the ungenerous way you treated the above hotel staff." A copy of the head waiter's letter was sent by the indignant Londoner to the hotel proprietor, from whom he received sincere apologies.

CAN LIVE ON 50 CENTS WORTH OF FOOD A DAY

WARREN, O., Aug. 30.—That a man can maintain normal weight on 50 cents worth of food a day, was demonstrated here after a week's test by Dr. B. J. Maguire. He weighed 175 pounds at the start and the scales showed no decrease in weight after the week of abstemious diet. The test was made as a result of a friendly argument between Dr. Maguire and two other physicians. Dr. Maguire ate the 21 meals in a local restaurant.

JOHNSON DROPS A HARD ONE

Veteran Twirler Bumped by Yankees 3 to 1—Homers by Ruth and Pipp

Williams, Hornsby and Walker Now Tied for Home Run Honors

"It is surprising in the majors more difficult today than when you broke into the American League?" That question was put to me the other day following the announcement from Chicago that Judge Landis has been named as the new umpire in charge of the game. The fact of the matter is that the work of the umpire has been made more difficult than ever before. I have been in the major league for 17 years, coming in before the double-umpire system was established. The actual task of umpiring is more difficult but it is much more difficult to please players and spectators. That, in brief, would be my reply as to the present status of the umpire in comparison with the old days. Kicking on the part of the players, much as it is, is not the cause of the difficulty. The money has made the umpire's task much more difficult than before. The present method of dividing the work of the umpire is the cause of the difficulty, so far as the major league umpires are concerned. The system which gives a cut in the money to the three umpires in each league has tended greatly to increase the umpire's burden. This system has been a good thing for baseball proper, when it makes the players fight to the last ditch. However, it has added countless woes to the task of umpiring. Last year I saw that finished third in each major league received practically \$1000 per man for the performance. Not so long ago that was as much as the players on a losing team in the world series got. Until the present system of division was agreed on, the umpire was a man alone at the plate, once a club felt that its pennant chances were over, it was inclined to take things easy. Now it's different, because "every" pennant contender has three objectives—to win, place and show. It means that the umpire, any time he works in a very important game, is in a very tight place. Second or third, has his work cut out for him. In the old days, if a team got out in front late in the year with a prohibitive lead, it was a cakewalk for the umpire. Today it is entirely different. It is a strenuous race to the very finish. The battle for the pennant prize, as well as the two other prizes, makes it harder to please the players, much as they are on the part of the players arouse the sympathy of the fans. Feeling that their favorites are getting the worst of it, the fans pick on the umpire. All of which makes it seem that the umpire is working poorly. Following Judge Landis' announcement relative to the umpire, Bob Dunbar, in the sport columns of the Boston Herald, came to the defense of the umpire in the following editorial, which I am taking the liberty to reprint. It is well put. "I want to take exception," says Dunbar, "to the story out of Chicago which leads us to believe that Judge Landis accepts the verdict of a lot of disgruntled fans, who claim that the umpire is doing poorly. It is a very hard thing to say, but the fact is that the umpire is doing better than ever. The trouble is not with the umpire, but with the fans. They are more critical these last few years than ever. They want more than the other years. They want their at-home team to get the edge. "It is because the umpiring is good, because the umpire is not giving the edge to the home club, that the fans are screaming. "And I am sorry to say that some of the newspaper men, as ardent fans as any who sit in the right field bleachers, form their opinions on this same partial material. "Undoubtedly it is more difficult today than in the past, but the lure of the dollar sign has made it much harder to please."

BRAVES HAVE ELEVEN GAMES IN SIX DAYS

BOSTON, Aug. 30.—Eleven games in six days was the stunt confronting the Braves when they returned to home grounds Sunday. The double-header with Philadelphia in many days, was their immediate task beginning today. Recruits recently obtained have been called upon to report in time to help out in the emergency. Four new acquisitions, announced today, included J. Alvin Young, purchased from the Greenwicks, a left-handed pitcher; Joseph V. Matthews, a left-handed pitcher obtained from the Norfolk; Kenney Shore, a right-handed pitcher, an infielder from the same club.

AMATEUR BASEBALL

The Maple A. A. will play the Wanderers Friday night on the South common at 7 p. m. The following players are requested to report: R. and J. Lavenex, Nicholson, Brackley, Klutner, Harrington, Fratus, Baxley, Dickinson. On Saturday, the Maples will play the C. M. A. C. Cadets on the South common at 3 p. m. The Emeralds A. A. emphatically accept the challenge of a three-game series for a side bet of \$10. The Emeralds are willing to start the series next Monday as they have no open dates until then. The first game will be played at Emerald park, the second at Shedd park, and the third on the South common. The average age of the Emeralds must be 15 or the purse will be forfeited. Call 5262-14.

NEW HAVEN PITCHER

FANS 14 IN 9 INNINGS

NEW HAVEN, Conn., Aug. 30.—Frank Woodward, former major leaguer, struck out 14 Worcester batters in the first game of an Eastern league double header here yesterday and statistical scribes today said this performance equaled any previous of his for nine innings in the Eastern or the old Connecticut league. Every Worcester player struck out at least once; only one man reached second; no walks were issued by Woodward, and he allowed but four hits. New Haven won 10 to 6. Woodward, leading pitcher of the Eastern league, who was farmed out to the local club by the Boston Braves, was recalled by that team yesterday and left for Boston today. He has won 12 games this season and lost three. His 15th victory was scored in the second game of yesterday's win by New Haven winning, 12 to 4.

MOODY CLUB

Crescent Club, Labor Day Night. Philney Boyle vs. Louis Hamilton. Jimmy Brown vs. Danny Nelson. Kid Deacons vs. Danny Murphy. Young Hancock vs. Tommy Carroll. Prices \$1.10, \$2, \$2.50, including Tax.

AKRON, O., Aug. 30.—Horseshoe pitching is a science in Akron. It's so blooming scientific that Akronites have

THE RULES
1. Game usually is played by two opposing players, each of whom has two shoes weighing not more than 2½ pounds. More than two can play at a time, however.
2. Object of the game is to lose shoes to stake at opposite end of court. First player throws two shoes in succession. Then second player throws.
3. Shoes resting more than six inches from stake do not count. Closest shoe (if within six inches) counts one. If one player has both shoes to stake and within six inches of the stake he counts two. If one player has one shoe to stake and within six inches of the stake he counts three. A ringer encircles the stake in such a way that a straight edge will touch the heel of the shoe without touching the stake.
4. Equals cancel. In other words, the first player put an shoe to stake (three points) and one outside the six-inch circle and the second player got a ringer (three points) and a shoe inside the six-inch circle (one point), the second player would score one point.
5. Regulation games are for 50 points. Summary of results should include points, number of rings and doubles (two fingers in same landing is a "double"), number of throws and time.
6. First player is decided by lot. Winner of preceding inning pitches first thereafter.

done out a way to spend \$60 on a court, which is a lot of money for a set of horseshoes and the ground.

And invention! Akron stakes are cushioned in rubber. They're surrounded by dough-like fire-clay to make the shoes stop with a "plink" just where they strike. Around the fire-clay areas are wooden pitching platforms which fold over the fire-clay when not in use—and lock—no protection against weather and unauthorized players.

Akron scores are kept on elaborate sheets which show just what happens to every shoe.

The Akronites even have a magazine, called "Horseshoe Golf."

Chair for Form

E. M. Twynham, president of the Akron Horseshoe Golf club, in one of the moving spirits in the development of the game from its humble origin of two stakes and four horseshoes to the present day, is a member of the Akron Horseshoe Golf club. He is a faculty for teaching form. No golf pro has a keener eye for feet, knees, hands, wrists, heels, chins, toes, and other points of the human anatomy.

"How should a beginner start?" he was asked.

HARRY WILLS KAYOS JACKSON IN THIRD

NEW YORK, Aug. 30.—Harry Wills, New Orleans heavyweight, last night knocked out "Tut" Jackson of Washington Courthouse, Ohio, after two minutes and five seconds of fighting in the third round of their scheduled 15-round match at Ebbetts Field, Brooklyn.

A hard swinging right to the kidneys sent Jackson to the canvas. He tried hard at the count of eight to rise, then fell of his feet. Wills, who had not landed more than three hard punches in the contest, while the New Orleans man had pounded his head and body with 40 or more.

It was the first time that Jackson, in his short pugilistic career, had been knocked out. Jackson, some 40 pounds lighter in the heavyweight division, most notable of these knockouts was that of Sam Langford, the "Boston toe" who, in 1910, was again one of the leading heavyweights of the world. Jackson showed little of his pugilistic knowledge against Wills.

Wills landed several body punches and Jackson smiled broadly at him. Wills pounded Jackson's head with heavy blows, and Jackson was hurt by a hard left to stomach and left to jaw. He fought back, Jackson went down with a heavy right to the stomach and was up at the count of eight to his corner apparently unharmed.

Round 2—They talked a lot and grinned at each other after Jackson's first knock out. Wills was warned against heading; Wills staggered Jackson with lefts and rights to head and the left again. Jackson, who appeared to have lost some of his strength.

Round 3—They were in a series of clinches, neither punching effectively. Jackson went down with a hard right to the stomach. Jackson went down with a hard right to the kidneys and was counted out.

Wills landed several inches above the chin and outwinded him by 25 pounds. Wills showed prodigious strength in his punching. Jackson was badly hurt by heavy blows, and Jackson was hurt by a hard right to the stomach. Jackson went down with a heavy right to the stomach and was up at the count of eight to his corner apparently unharmed.

Round 4—They talked a lot and grinned at each other after Jackson's first knock out. Wills was warned against heading; Wills staggered Jackson with lefts and rights to head and the left again. Jackson, who appeared to have lost some of his strength.

Round 5—They were in a series of clinches, neither punching effectively. Jackson went down with a hard right to the stomach. Jackson went down with a hard right to the kidneys and was counted out.

Wills landed several inches above the chin and outwinded him by 25 pounds. Wills showed prodigious strength in his punching. Jackson was badly hurt by heavy blows, and Jackson was hurt by a hard right to the stomach. Jackson went down with a heavy right to the stomach and was up at the count of eight to his corner apparently unharmed.

Round 6—They talked a lot and grinned at each other after Jackson's first knock out. Wills was warned against heading; Wills staggered Jackson with lefts and rights to head and the left again. Jackson, who appeared to have lost some of his strength.

Round 7—They were in a series of clinches, neither punching effectively. Jackson went down with a hard right to the stomach. Jackson went down with a hard right to the kidneys and was counted out.

Wills landed several inches above the chin and outwinded him by 25 pounds. Wills showed prodigious strength in his punching. Jackson was badly hurt by heavy blows, and Jackson was hurt by a hard right to the stomach. Jackson went down with a heavy right to the stomach and was up at the count of eight to his corner apparently unharmed.

Round 8—They talked a lot and grinned at each other after Jackson's first knock out. Wills was warned against heading; Wills staggered Jackson with lefts and rights to head and the left again. Jackson, who appeared to have lost some of his strength.

Round 9—They were in a series of clinches, neither punching effectively. Jackson went down with a hard right to the stomach. Jackson went down with a hard right to the kidneys and was counted out.

Wills landed several inches above the chin and outwinded him by 25 pounds. Wills showed prodigious strength in his punching. Jackson was badly hurt by heavy blows, and Jackson was hurt by a hard right to the stomach. Jackson went down with a heavy right to the stomach and was up at the count of eight to his corner apparently unharmed.

Round 10—They talked a lot and grinned at each other after Jackson's first knock out. Wills was warned against heading; Wills staggered Jackson with lefts and rights to head and the left again. Jackson, who appeared to have lost some of his strength.

Round 11—They were in a series of clinches, neither punching effectively. Jackson went down with a hard right to the stomach. Jackson went down with a hard right to the kidneys and was counted out.

Wills landed several inches above the chin and outwinded him by 25 pounds. Wills showed prodigious strength in his punching. Jackson was badly hurt by heavy blows, and Jackson was hurt by a hard right to the stomach. Jackson went down with a heavy right to the stomach and was up at the count of eight to his corner apparently unharmed.

"I'll show you," said he. "Oh, Snyder!" he called to one of the players.

Charles Snyder came over and was introduced. A year ago he simply threw shoes. Today, by constant practice, he shows a form approximating that of George May, Akron "club" star, and one of the world's leading horseshoe pitchers.

Exactly 46 Feet

"The first thing a beginner should do," said Twynham, "is to learn to throw a regulation shoe exactly 46 feet. He can hold it any way that seems natural. But he should practice until he can throw it 46 feet no more and no less."

"For most pitchers the best style is the 'errile rock' and the 'pendulum swing'."

Here Snyder gave a demonstration which was caught by the camera.

Feet together, right arm hanging directly over the stake. Eye on the shoe 46 feet away. That was Snyder's position.

Then Snyder's arm swept straight back, with no crook in the elbow. With the downward swing of the "pendulum" his left foot advanced in straight line. His right foot rocked from heel to toe, but otherwise kept its position on the pitching platform.

A peculiar wobbling movement was applied to the shoe with a twist of the wrist. As he released the shoe, his hand and arm "followed through."

Perfect Toss Scored

The 2½ pound iron almost floated through the air, wobbling as it went. In an arc about nine feet above the ground at the highest point.

Then, just as the force of the throw was spent, the shoe "plinked" into the fire-clay around the stake with heel calks away from the pitcher—"open," as they say. It was a perfect ringer.

"Beginners needn't worry about holding the shoe," said Twynham. "After they learn to throw 46 feet and acquire the form of the pendulum swing and swinging toss, they can easily shift their grips around the shoe until they find the right place to make it land 'open.'"

"This may be a 'three-quarters turn,' a 'one and three-quarters,' or even as much as a 'two and a half' turn."

Out of Control

Shoes that whirl around more than two and a half-times are out of control.

"The 'wobble' is difficult, but worth mastering, because a wobbly shoe has twice as much chance to ring as a flat sailing shoe."

George May, whom everyone in Akron hopes to emulate, has regularly put 25 out of 28 or 30 pitches. Clark Wills, an Akron pitcher who uses the "errile rock" style, recently made 1255 rings in 65 games.

Walter Hagen, British open golf champion and Joe Kirkwood, Australian champion, who are touring the country in a program of exhibition matches, played over the course of the Vesper Country club yesterday afternoon and defeated Harry Ellis, local amateur, in a best ball match, 2 up and 1 to go. While the exhibition was in progress, the 18-hole match was played, with Hagen and Kirkwood's 73 equaled the par of the course and was the lowest score made by the quartet. Hagen had two strokes, and Kirkwood 15. Ellis got a 72 and Newton an 82.

A gallery that numbered nearly 500 men and women watched the play and carried over the beautiful course for fully three hours. After the match Kirkwood gave his exhibition of trick and fancy shots, although they are more scientific than fancy and can be played only by such a master craftsman as the young Australian.

Hagen's position in the golfing world gave reason to believe that his playing would result in the best score over the 18 holes, but it was Kirkwood who got the honors. He hits a ball with even more fire and dash than does the British open champion and, although Hagen is the finished product, with complete mastery over the 18-hole hole, he is not so brilliant. Kirkwood is "sensationally brilliant" and his score of 73 was perfection itself.

It was a week ago, Francis Oulmet, about the course with a group of friends, set the record at 71, but he was shooting from the forward tee. Yesterday the distances on every hole were considerably greater, due to the fact that the back tees were being used and what is more, No. 9 was played as originally laid out, with a stretch of 227 yards from tee to green. Instead of the 160-yard distance that Oulmet had used, he was playing a hole that was 100 yards longer. While Oulmet's mark will stand as a record in a sense, Kirkwood's 73 also will find a place on the record books and stand as a record.

To chronicle the match, play by play, would be a continuous repetition of sound golf shots. Now, long, far, short, and so on, would be a very long and boring story. The game was played on the green and was played with a very strong team. The game will start at 6 o'clock.

TWO BOXERS SUSPENDED
NEW YORK, Aug. 30.—The state boxing commission yesterday announced that Young Montmartre of Providence, R. I., and Ray Moore of St. Paul, Minn., banishment boxers, had been suspended for 60 days. The action is taken as the result of the disqualification of both at the Knickerbocker club on Aug. 21.

"Monte Cristo," Strand, Next Week. It will pay you to get The Sun classified ad, habi.

SALEM TOWN TEAM TO PLAY C. M. A. C.
What is expected to develop into a great pitchers' battle between Peter son of the C. M. A. C. and Chick Davies of the Salem town team is on the program at the textile campus tonight.

A few weeks ago the famous Salem town team was to play the C. M. A. C. and they came very near leaving with a defeat chalked up against them. Only for an error by the C. M. A. C. pitcher, who had pitched on the C. M. A. C. banner. As it was the best the Salemites could do was to tie up the score.

Ever since that game, which was without doubt one of the best of the season here, local fans have been anxious to see the teams again in action. And Manager Bill Marcott has been just as desirous of getting "on back, so confident in he of landing a victory."

The Salem will bring up their strongest while the locals will present a very strong team. The game will start at 6 o'clock.

KNICKERS INVADE TENNIS COURTS

Spectators at the famous Forest Hills tennis courts sat up straight in their chairs when Miss Hattie Burke appeared in white knickers. They were something new, but Miss Burke says they allow her to play tennis better.

SPORTS OF ALL SORTS

With the Twilight baseball season over sport lovers are now turning their attention to fall and winter games and the promoters of indoor activities are mapping out plans of action.

Present indications point to a very busy season in the old Spindie city, with boxing, basketball, polo, bowling, wrestling, etc., holding forth in the various halls and amusement buildings.

The first to get underway will be boxing when the local club, which has resumed activities with a high class card on Labor day evening, Philney Boyle, local heavyweight champion, and Louis Hamilton, the pride of Nashua, will meet in the feature event of ten rounds.

Boyle has been training for several weeks at Salisbury beach, working out with Mike Castle of Lawrence and several other fast fighters. He regularly appeared in recent exhibition bouts at outings and performed at the recent benefit for the car shop strikers. On that evening he showed he was a fine fighter, being right down to weight. He worked fast and used his left with telling effect.

Reports from Nashua state Hamilton, too, is a very busy individual, doing much work in the gymnasium and on the road. He is anxious to organize a league, and will leave no stone unturned to be in the "pink" when called upon to trade wallops with the local lightweight.

Already several bowling leagues have been organized, while plans are being made for the formation of many others. A movement is underway to reorganize the Catholic league, which enjoyed such remarkable success here a few years ago. Then it is said a campaign is in progress to organize a ladies' league. Several young ladies, formerly of Lawrence, but now residing in this city, are interested in having the lady sex represented on the alleys. In the down river city there are almost as many women bowlers as men, and when the mills are running practically all have their women's bowling leagues.

The City league, always a fixture, will no doubt be back on the job. The rivalry between the teams identified with this organization, just naturally brings all back into competition for the title. The C. M. A. C. is in the city league machinery in the presence of Walter Jewett in the capacity of secretary. He has held this important and difficult position for a number of years. He has proven a most acceptable and zealous official and hence the members are anxious to keep him on the job.

The prospects for another season of basketball are exceedingly bright. Already there is much talk of leagues being formed. One man has suggested that in addition to the four teams mentioned recently, namely the C. M. A. C., the Y. M. C. I., the Y. M. C. of the Chelmsford Legion, that the Y. M. C. A. and the Centralville club be included.

This would embrace about all the sections of the city, he says, and consequently ought to create great rivalry to the success of the undertaking.

The idea of also having a junior basketball league is also being considered. The program precedes the opening of the Grand Circuit meeting in Columbus, Sept. 15.

BASEBALL GAME TONIGHT

FIELD DAY AT NORTH RANDALL SEPT. 15
CLEVELAND, Aug. 30.—A field day for drivers and Grand Circuit horses will be held at North-Randall track Sept. 15.

Thomas Murphy will drive Peter Manning and Arton Guy in special trials in an effort to make new records. The meet will be under the direction of the Gentlemen's Driving Club of Cleveland.

The program precedes the opening of the Grand Circuit meeting in Columbus, Sept. 15.

REAL THRILLS AT READVILLE

Splendid Racing by Grand
Circuit Horses There Yes-
terday Afternoon

Margaret Dillon Wins Special
Free-For-All—Walter Cox
Takes \$3000 Purse

BOSTON, Aug. 30.—Splendid racing it was at the Grand Circuit horses provided at Readville yesterday afternoon and out of luck were those who missed it. Paved indeed will the many be who were not present because they believed that after the three-day rain the track could not dry out with less than a full day's sunshine.

The footing was not fast, and from a speed standpoint the opening session of the big line horses in Boston was not all that was hoped for but the time was given little consideration.

Quite a big day for A. B. Cox. A year ago Readville had for excellent racing a meeting, and the balance of the week is up to the first day's standard history will repeat. Not heretofore in the history of the track was a day so big as this. The massive frame of the Pennsylvania sportsman fairly shook with joy as he walked across the lawn at the close of the fourth race. He had witnessed something that probably never before on the Grand Circuit has been the fortune of one individual, for it was his pleasure to see three horses of his breeding win races, and two of them he still owns, and all are the get of his great young stallion, Dillon, A. B. Coxworth, 2:10 1/4.

Thompson Dillon, winner of the junior division of the American Horse Show, and Futurity, the first in the Fair Oaks Farm purse, he still owns. Margaret Dillon he sold when she refused to trot in her young form.

Rather an enjoyable afternoon it was for the home crowd too, for Walter Cox, who was still a child, as a New Englander, won the \$3000 Beaumont Farm purse for 2-year-old trotters with Peter Volo, the 4-year-old colt, owned by Sanford S. Small of Atlanta.

Then, Charles H. Traiser's Margaret Dillon won the special free-for-all purse, given by the Readville management, which Boston could have only glimpse this season of its speed queen.

Sweet little Margaret did not trip away with her race in just the manner expected for saving her all possible for the hard campaign ahead of her. Murphy underestimated the speed of Jimmy McKernon, but at the end of the race she was in the lead, and the Cleveland gelding outbraced her at the end of the second one.

Murphy made the sprint a long one in the third heat and at the end of a fourth quarter in 29s his mare was the best.

Great Volo a Real Racer
The Great Volo was a real race horse for two years, coming from behind in spectacular stretch finishes. Cox had him under a drive right to the wire in the first mile and the Boston colt was most impressive as he out-trotted Lon McDonald's good racer, King Watta. The Great Volo trotted with a competitor's wheel on the far turn in the third heat and went to break. With the race already tucked away, Cox did allow him to road along when he caught the half-mile track champion, Herbeloyn, and rushed to the front when Starter Albert Merrill said "go" and remained there.

Trainer Joe Serrilli's latest tutury model, Thompson Dillon, was not forced to show his best in the Breeder race, but he did, a daughter of E. W. Watta, 2:08, and Margaret Dillon, 2:03, made him go in 2:11 1/4 the first heat. There was a fine finish for second place in the next mile between The Senator, Progress and Ho Guy.

Serrilli furnished the surprise of the day in the three-year-old trot by winning with Pilot Dillon, out of the one time futurity crack Carlotta, 2:07 1/4.

The handsome youngster was third to Audrey Rodney's Watta in the first trip in the mile, but he out-trotted Hope Frisco, the favorite, in 3:05 1/4, repeating against the Great Lullwater and Watta in Bond in a nice finish in 2:10 1/4.

The 2:16 trotters gave the judges

a lot of bother in separating them at the finish of the second and third heats, after Nat Ray had taken the first heat with Peter Will Tell.

A half-dozen horses were spread across the track each time the Harrison, N. J. gelding, Monarque being seen first.

Yesterday's summary:

Today Massachusetts Day
READVILLE, Aug. 30.—Bill Sharen,
the \$25,000 trotter in the stable of Thos.
W. Murphy, went to the post the favor-
ite today in the \$5000 Massachusetts
stake for 2:12 trotters, the feature
event of the second day's program of
the Grand Circuit meeting. Five other
horses were expected to start in this
event.

The Oakhurst Farm stake for two-
year-old trotters; the Pilgrim for 2-
year-olds; and the 2:07 trot, were the other
events.

ADJUSTABLE WRENCH
A whole set of pocket wrenches in
one! This is the advantage of the
new form of adjustable wrench shown
here, say its makers. It is made to

do the work of a set of "S" wrenches,
socket, monkey and pipe wrenches
and tire tool.

WE HAVE

MARKET ST.

AUTO-TALK

Messengers in London use a motor
scooter for deliveries.
Motor enthusiasts to the national parks
for the 1921 season totaled 668,000.
Chicago Auto club has a fleet of
motorcyclists to sweep up glass on
streets.

French farmers are using a motor
tractor that can be converted into a
tractor.
St. James' church of Evansburg,
Pa., has parking space for 800 auto-
mobiles.
Loose spokes of wire wheels can be
detected by striking with some me-
tall object.

Aluminum step plate has been made
so that it can also be used as a bag-
gage carrier.
Sixty-five per cent of the 2500
passenger cars in Greece are of Amer-
ican make.
New type of fan shuts off the flow
of cold air when the engine temper-
ature is low.
Cylindrical cooker has been in-
vented for the use of automobile ex-
haust as heat.
A crankless gasoline engine has
been invented by J. E. Emley of
Jacksonville, Fla.
World's automobile registration so
far this year increased by 15 per cent.
over that of 1921.
Half the potatoes in Kansas City
markets are transported by commer-
cial vehicles.
Canada imported nearly 50,000 autos
in the last three years, most coming
from the United States.
A monthly bumper, striking an
object, cuts off the ignition and sets
the emergency brake.
Pennsylvania highways for the use of
motorists along the road.
P. D. Harman, Cedar Falls, Wash.,
has invented a device that warns the
driver when a tire is deflated.
Employment in the automobile in-
dustry in June increased 6.5 per cent
over that of May.
States and nation are planning the
construction of 130,000 miles of high-
way in the next 15 or 20 years.
Motor bus in Detroit has a capacity
for 135 passengers and is made so
that the body can be separated from
the engine.

ARM REST FOR DRIVER
The driver who is handy with the
hammer and saw can fashion a seat
rest on which he can rest his left arm
when driving. The rest is made so
that it can slip over the door along-
side the driver's seat and can be taken
off when not used.

HEEL PEDAL CONTROL
Reversing an electric motor can be ac-
complished without danger by the in-
stallation of a separate heel pedal
control near the seat. By shifting the

foot from the forward control to the
heel pedal the car is thrown in re-
verse.

SPRING LEVELS CAR
The automobile is always level if it
has this compensating spring. It is
tied to the front axle, say its
manufacturers. The spring acts as a

shock absorber, while the cross-bar
connected to the end of the
chassis, keeps the car level no mat-
ter what the position of the wheels
may be.

"Monte Cristo," Strand, Next Week.

TO TAKE JOLTS OUT OF MOTORING

Automotive engineers are directing
their attention to the yielding qualities
of their products. They are bound to
take the jolts out of motoring.

Designs have been submitted in the
United States and other countries for
springs and shock absorbers which,
their inventors say, should help
smooth the roughest roads. Unsprung
weight is being reduced to a mini-
mum.
One of the plans submitted to auto-
mobile manufacturers in Australia
consists of the use of six, instead of
the usual four, springs. These six
springs are ranged three along each
side of the car and in series, so as
to take up a jolt over the whole car.
They are semi-elliptic and are shack-
led together at the end of each of the
outer springs being fastened to the
front and rear axles.
In this way, length is obtained—an
essential for smooth driving. While
the spring itself is staunchly built, its
stiffness is neutralized by its length.

French Design
Another form of spring suspension,
shown here, was invented by a
Frenchman. It is practically a shock

absorber. But this is designed to re-
place springs. Even the axles are
eliminated. Instead there is a mount-
ing for the four wheels, consist-
ing of a lever arm the end of
which bears against a coil spring
housed in a glycerin filled cylinder. A
piston in the lower end of the cylin-
der is provided to check rebound.
When the car hits a bump the up-
ward movement of the wheel com-
presses the spring which checks that
part of the jolt. At the rebound,
the sudden jolt back is impeded by the
chamber full of glycerin which can
escape only through small holes in
the piston head. As soon as the pres-
sure is removed the liquid returns to
the bottom of the chamber by gravity.
Since there are no axles, on this
car, the differential housing is mount-
ed directly to the rear frame cross-
member. Two universals are used for
each wheel because of the upward
and sideward motion.

United States Ideas
American inventions for eliminating
rough riding consist of an adjustable
leaf spring for any weight, transverse
leaf springs in place of axles, and
an air cushion arrangement in place
of springs.
In practically all designs of this
kind the main purpose is the reduc-
tion of unsprung weight. That is, the
total weight unsupported by the
springs. This includes the wheels,
the axles, the parts of the springs
that move with the axles.
In the average five-passenger car
the unsprung weight is more than
one-third that of its total weight. It
is on the unsprung weight that a
car's riding qualities depend.

THE USE OF
THE WORD SALE
Many times the word sale is used
to indicate a bargain in merchandise
when the opportunities for bargains are
not exceptional but in the case of the
tire sale now being conducted by Er-
vin Smith company it means all that
can be expected of such an announce-
ment.
The quality of the tires and the
prices charged make one of the most
substantial savings ever offered in that
line and it should demand the atten-
tion of every autist who anticipates
going away over the holiday. These
tires will not be available after Sep-
tember 2.

AMERICAN AMATEUR
GOLFERS WIN OUT
SOUTHAMPTON, N. Y., Aug. 30. (By
the Associated Press.)—Leading Brit-
ish and American golfers having settled
their dispute as to international
supremacy in favor of the United States
by a margin of eight matches to four,
moved today toward Brookline, Mass.,
to prepare for the American amateur
championship tournament beginning
next Saturday.

Teamwork will now be abandoned.
There will be highly individualistic ef-
forts to defeat James Gulliford of Bos-
ton, both by the 11 individuals besides
Gulliford, who participated in the two
days' tournament for the Walker cup,
and by 138 other golfers, some Cana-
dian, some British, but mostly Amer-
ican.

BUILDING TRADES COUNCIL
The Lowell Building Trades council
was organized at a meeting of di-
rectors representing the various crafts,
which was held last night in Electric-
ian's hall, Odd Fellows' building, Mil-
lions street. Thereafter, of the com-
mittee on by-laws was received and
accepted and it was announced that
permanent officers will be elected at
a meeting to be held Tuesday evening,
September 5.

ORDERED CASE CONTINUED
Feeling that he might be swayed by
prejudice to the disadvantage of the
defendant, the trial of Edw. J. Arm-
strong, charged with larceny, Associ-
ate Justice McKenna yesterday ordered
a continuance of the case so that it
might be tried before a different
judge. He said that the complaining
was a very good friend and neighbor
of his and that he had talked over
recent passages with the case with him.
Under such conditions, the judge
thought it would not be fair for him
to hear the trial and pass judgment.

JACKET BLOUSES
Jacket blouses in silk materials
are now seen on the market with
separate skirts of silk or wool.

BUICK PASSENGER TOURING CAR

For this season, the Buick five-pass-
enger touring car reaches the high-
est pinnacle of value that it has ever
attained. Always mechanically fine,
always positive in power and in ac-
tion, this car may also be singled out
for its beauty, its convenience or its
comfort.

Riding in this touring car, you will
be conscious of a new sense of ease.
The seating has been rearranged and
lowered, so that you sit more securely
within the body, with more leg room
and more support at back and sides.
The new springs, with their main
leaves of vanadium steel, have less re-
bound and more resiliency. No top
bows obstruct your vision, no side
sway disturbs your poise.

Driving, you note that your hands
rest more naturally on the lowered
wheel, and that a slight movement of
the wrist brings the control lever un-
der your fingers. On the dash you
have a perfect index to the perfor-
mance of the motor lubricating system
and the generator, together with a
speedometer, cowl ventilator adjust-
ment, and carburetor choke adjustment,
ignition, and light controls, with instru-
ment light.

The sides of the body are trimmed
clear up under the cowl and a neat
carpet covers the tonneau floor. The
trimming on the sides of the seats,
front and rear, is piped to match the
cushions and backs. The tonneau has
the addition of a tonneau lamp, and
the heel board is covered with carpet.
The upholstery on the back of the
front seat has been redesigned with
a large compartment for the side cur-
tains, and carries a leather-covered
robe rail with nickel mountings. The
rear curtain light has been enlarged
and the door pockets are both neater
and larger.

The windshield is adjusted from the
inside, with a new weather strip com-
pletely sealing the opening between
the upper and lower frames with a
wiper mounted firmly in the upper
frame. There are improved side cur-
tains, with increased area of visibility,
split lights, and a signal pocket for
the driver.

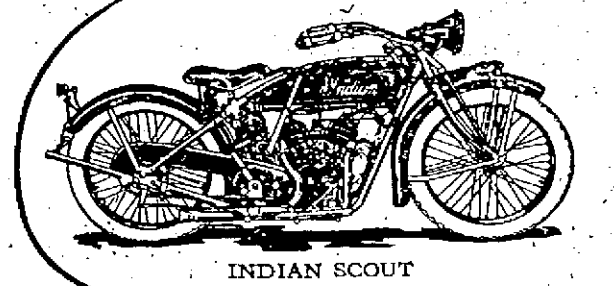

The frame is heavier and lower; the
brakes are larger and more powerful;
the one-piece, crowned fenders are
more beautiful and more serviceable;
there is a positive theft lock on the
transmission; in the cowl is a new
type ventilator, with dash adjustment,
handholds and parking lights are of
the drum type; running board scuff
plates protect the dust apron; new
hood catches anchor the hood firmly
and prevent rattle; new rear fender
wings close the gap between fenders.
Frame and gasoline tank, handsome,
attached plates are on every threshold,
not a tack is anywhere visible
throughout the upholstery.

With new lines, and with almost
lavish refinements throughout, the
Buick Model 45 touring car matches
in beauty, convenience and comfort
the fine mechanism upon which its
reputation has been built.

ENGLISH YACHTS TUNED UP
OYSTER BAY, N. Y., Aug. 30.—The
quartet of English six-meter yachts
brought to this country to defend the
International trophy, four craft in their
clags are being tuned up in preparation
for the 1st race Sept. 3.

The visiting yachtsmen today ex-
pressed themselves as pleased at the
first tryout of the yachts in American
waters.

The New Master of the Road
Buick Seven-Passenger Touring—\$1435

Sweeping refinements in motor, chassis, body and equip-
ment mark the Buick seven-passenger open car for 1923.
Re-designing has brought the car's height down several
inches with no sacrifice of head-room; an entirely new
cantilever spring suspension provides a degree of riding
comfort unexcelled.
Above the windshield is a visor of distinctive design,
there is a cowl ventilator, a gasoline gauge on the dash,
a rear-view mirror, a transmission lock, the shifting
lever has been extended. The entire car shows a com-
pleteness of equipment not to be found elsewhere
within a thousand dollars of its price.

The Buick line for 1923 comprises fourteen models:
Four—8 Pass. Roadster, \$304; 6 Pass. Touring, \$385;
5 Pass. Coupe, \$1175; 6 Pass. Sedan, \$1395; 6 Pass.
Touring Sedan, \$1325. Six—8 Pass. Roadster, \$1175;
6 Pass. Touring, \$1195; 6 Pass. Sedan, \$1395; 6 Pass.
Touring Sedan, \$1325; 6 Pass. Coupe, \$1395; 7 Pass.
Touring, \$1455; 7 Pass. Sedan, \$1495; Sport Roadster, \$1625;
Sport Touring, \$1675. Prices f. o. b. Flint. Ask about
the O. M. A. C. Purchase Plan, which provides for Deferred
Payments.

REBUFF TO G.O.P. SOLICITORS

Already the republican national committee has begun to appeal to the big interests for money to be used in the fall campaign to fight the democratic opposition.

That the appeals of the committee are meeting blunt refusals is proved by at least one letter in which an old time republican turns on the party and charges it with a total lack of practical results. In reply to a begging letter, Col. Charles M. Warner, president of the Warner Sugar Refining company and other industries, makes a vigorous attack upon the republican administration, the tone of which may be understood from the following extract:

"You ask me if I have observed that the democrats, true to form, are basing their hopes on 'discontent' and 'dissatisfaction.' Haven't they a right to feel discontented and dissatisfied?"

"What has the republican congress done to cheapen the cost of living? What pledge has it redeemed?"

"You are trying to bring the cost of labor down, but how can you expect to accomplish this and satisfy the workingman? If you keep the cost of living up? You may think I talk this way because I am president of one of the largest independent cane sugar refining companies. I plead 'guilty.' My company is anxious to serve the consumer of sugar with a cheap article. I am discontented and dissatisfied in seeing a little clique in congress passing a tariff wholly unnecessary, having no other purpose than to make the public pay, and for no other reason than to let certain interests fatten at the public expense."

"I think the people are disgusted with the present performance of the republican party, as exemplified by its administration, as the only way these republicans, who are now drunk with power, can be disciplined, is to elect democratic congressmen to office."

The author of that letter has been voting the republican ticket for 35 years, and he states that he has contributed to the party funds whenever asked to do so; but at present he feels that the Harding administration has been such a failure that even staunch republicans should refuse to save it from the retribution it has so richly earned. In this attitude Mr. Warner will have very general republican approval. His sentiments in reference to the party are largely reflected throughout the country.

A NEW POLITICAL GAME

Just at present the republicans at Washington are engaged in a great game of passing the buck. Congress is reluctantly going to pass the bonus bill and send it to President Harding, who is expected to veto the measure. On the other hand, the president has been bungling the strike situation for several months, and when he got it completely muddled up, he threw up his hands and passed it over to congress, asking for the power necessary to enable him to order government operation or control of the mines and railroads. Congress is willing to authorize the seizure of the mines; but it balks at any direct intervention in the railroad quarrel, although the leaders are in favor of government control, something which was supposed to exist under the Interstate Commerce commission and the Railroad Labor board. Thus far, however, the administration has been unable to assert any authority or influence sufficient to move the railroad executives or the railroad brotherhood to a change of front or a settlement of the issues involved in the shipmen's strike.

Republican senators and congressmen who stand for re-election will find that President Harding's call upon them for a remedy for the country's industrial troubles, present and prospective, has succeeded them and is now discussed in their home ballrooms. As a result, these candidates, in addition to defending their own political records, will have to face the issue of the administration's failure to terminate the big strikes that have threatened industrial paralysis throughout the country. Until the president appealed to congress, the country looked to him for a settlement of the strikes, but since then, the responsibility has been shifted to congress.

The president is evidently smarting under the criticism of several big republican newspapers such, for example, as the New York Tribune and the Boston Transcript. It was evidently in response to such criticism that he interjected into his address to congress a sort of apology or promise of action relative to the riots at Berlin, Ill. The criticism hurled at the republicans and the big interests had hardly died down when this other blast came as a result of the manner in which the president has allowed the coal strike and the railroad strike to go unchecked until the verge of winter, so that if both were declared off tomorrow, there would still be a shortage of coal in some parts of the country because of the fact that the railroads will be unable to distribute the supply in time to meet the needs of the industries in the more remote districts.

A HUMANE MOVEMENT

In England there is a bill before parliament, the purpose of which is to legitimate children born out of wedlock by the marriage of the parents. Heretofore if the parents married, the illegitimate child would still be an outcast, so far as the inheritance of property is concerned. It is a remarkable coincidence that a movement in favor of the legitimization of such children is under way in this country where 32,000 children are born out of wedlock annually. In many of these states, there is a law requiring the father, if the paternity be established, to contribute a reasonable sum for three years. In Tennessee, for example, the amount is \$4 the first year, \$2 the second, and \$2 the third. At the end of the third year the court is to dis-

pose of the child as may seem best. The money award goes to the commissioner of the poor instead of to the mother.

Under the proposed law, court action to enforce the obligation of the father may be brought in the community and state where he is permanently or temporarily resident, or in which the mother or child resides or is found. This, together with other provisions relating to jurisdiction, would reduce the ease with which the father is now able to evade his obligations by going from one state to another.

The obligation to provide support continues until the child is sixteen years old. The court can fix the amount and determine the custody of the child.

The great question involved in any such law is whether it will tend to increase or to diminish the evil. The innocent children should not be victimized because of the sin of the parents, although they will be to a certain extent despite any law made to protect them. It is but just that the father, especially, if identified, should be made to pay the penalty of his crime if he refuses to marry the girl he has betrayed.

SENATOR LODGE'S RECORD

In reply to a questionnaire submitted by the American Federation of Labor, Senator Lodge dealt with several important matters of national legislation including child labor, the coal and railroad strikes and prohibition. He declares himself in favor of the bonus bill, a child labor law, the enforcement of the Esch Cummins bill and of the Adamson law. He declares that while he voted against the prohibition amendment and favored prohibition of distilled liquors only, he now favors strict enforcement of the Volstead act. Asked as to whether he would favor a change in the constitution providing for the sale of light wines and beer, the senator is rather evasive, as he states that being a senator he is bound to support the organic law of the state.

The Liberal Republican league in behalf of Hon. Joseph Walker, who is seeking the nomination for senator in opposition to Mr. Lodge, sends out a circular telling some of the important measures Senator Lodge opposed and the equally important that he favored. In its entirety, it is not calculated to do the senator much harm and its distribution throughout the state, for it is to be sent to every voter in the commonwealth, may help Mr. Lodge quite as much as Mr. Walker. Senator Lodge states in one of his replies that if the bonus should be vetoed, he would vote in favor of passing it over the president's veto. That is certainly a strong bid for the support of the service men and one that was not expected; but, of course, in view of his record, it is at hand. The primary election is at hand. It was this consideration, also, that caused the senator to change front on the tariff and vote for free hides.

MR. COLLINS' PLAN

It has transpired that Michael Collins, before his death, stated to some intimate friends that he intended to make an effort to have the constitution of the Irish Free State somewhat modified in order to overcome the sentimental objections of the irregulars who are trying to destroy the Free State under the leadership of Mr. de Valera. If any change of the kind can be made that would at all help to reconcile the opposition, it should be made. The form of the oath of allegiance to the Free State and the affirmation of loyalty to the king, is one of the features strongly objected to by the republicans. If that can be eliminated or modified so as to be less offensive, it might be easier to bring about an end of the present strife, which, if continued, can result only in one of two ways, either the Free State will have to vanquish the irregulars or else acknowledge defeat, in which case the British army and navy would come in to accomplish the task and would doubtless use force in a manner such as it has never before been used against Ireland. Those are the alternatives that confront the contending parties in Ireland. Some of the irregulars, it appears, are looking for martyrdom and if that is what they seek, they should be accommodated before they do much more harm. Any body of men who would fire upon a crowd of innocents at a funeral can have no sympathy from honest people.

PROFITTEERING IN COAL

Henry Ford has raised a question that the general public wants to see cleared up. He says there is no shortage of coal, that, on the contrary, vast stores of coal are held by speculators and profiteers who expect to double the price on it when this scare of a famine takes hold of the people. For weeks the Ford company has been flooded with offers of an abundant coal supply at prices ranging from 10 to 25 per cent above the normal cost. Mr. Ford will have rendered an important service to the country if he succeeds in exposing the profiteers before they have had a chance to fleece the public. The government should interpose to prevent any profiteering such as Mr. Ford charges as being planned, if not already in progress.

BEGGING A PARTNER

Germany refused to link up her destinies with those of Austria and now Italy talks of taking Austria under her wing. The great trouble is, that there is hardly enough of Austria left to function effectively as a national entity. That is why she wants to unite with some country stronger than herself. She was left dismembered on the dissecting table by the allies. She will be a burden on any country she may join, at least for a great many years.

SEEN AND HEARD

A swell neighborhood is where a street is a boulevard.

Ohio man claims a train missed his car two inches. Suppose the train had been ahead of time?

If that Fletcher street gas nuisance isn't looked after, there's going to be a whole lot of trouble.

A Thought

Why should we desire to meet difficulties prematurely when we have neither strength nor light provided for them? Let us give light to the present, whose duties are pressing; it is folly to the present which prepares us for fidelity to the future.

The Connection

"I'm a nickel short in my accounts," the speaker was a newboy, and he was addressing his pal, who looked at him and continued eating nuts. So the speaker spoke again, "Well," said his pal at last, "what's that got to do with me?" "Well," said the first, "I'm a nickel short in my accounts, and you're eating nuts."

Kissing Dangers

She had studied all the modern fads and was rather amused at the latest theory about kissing. Doctors said it was unhygienic and dangerous. Finding herself alone with a rather silent young man, she mistook his silence for shyness. "Do you think kissing is dangerous?" she asked. "Terribly," he answered. "Why?" "Whatever can it produce?" "Marriage!" he snapped.

The Gravel Editor

A certain editor recently received from a lady some poetic effusions. He tied up with pink ribbon and titled: "I Wonder if Hell Miss Me?" After reading them and receiving sufficiently from a severe attack of nervous prostration, the editor returned the verses with the following note: "Dear Madam: If you have not enough never to be trusted with freemasonry again!"

Friends Detained Him

A young man started on his vacation just after Easter, and he long overstay his time. On his return to the city in late summer a friend, none too flush of money, said to him: "Why did you remain so long away?" "My friends kept me there," he answered. "Your friends? Why?" "I didn't know you had any," his friend replied. "I have many friends by the seaside. They are all in jail now and they refused to send me any money."

Today's Word

Today's word is flux. It's pronounced flux-as spelled. As ordinarily used at the present day, it means a change; in process of fusion; in a liquid state, usually through heat. It comes from Latin "fluxus," flow. It's used like this: "The flux of the effects of the war, economic and many other conditions are in a state of flux, practically throughout the world."

Promising Youngster

Charlie came in late for tea on Sunday afternoon with a very far-away look in his cherubic blue eyes. "What got into Sunday school?" asked his mother. "Yes," replied Charlie. "Well, how is it your hands smell so fishy?" asked suspicious mother. "I got into Sunday school," he replied. "Well, how is it your hands smell so fishy?" asked suspicious mother. "I got into Sunday school," he replied. "Well, how is it your hands smell so fishy?" asked suspicious mother. "I got into Sunday school," he replied.

Taking Home

What you taking home, friend, what something for the little ones, cheer for mother's care?

What you taking home, friend, what's your package hold.

Little thoughts of tenderness, worth their weight in gold?

What you taking home, friend, something they will need.

Laughter and a little song and a gracious deed?

Ah, the most of us are fools, taking home each day.

Half the burden of our tasks, trucking grim and gray.

What you taking home, friend, something they will need.

To help them come with loving arm and clasp them over you?

—By FOLKIER MCKINLEY.

THE MAN ABOUT TOWN

Sunday motorists encountered great trouble in driving their cars along the highways because of the treacherous condition of the roads, due to the exceedingly heavy rainfall. Travelling over the road from Boston during the height of the storm, I noticed several cars stranded. Some were sitting in gullies and others had fallen into the ditch. Some were crushed against trees and posts, and others lying by the roadside. The only good feature of the rain storm was that it removed those dangerous drivers who speed along the road and cut in and out in front of machines. In their great hurry to get ahead, the drivers were very careful to give as much room to passing cars as they possibly could so that there would be no danger of a crash, due to the skidding of a car on the drenched road.

Read an article the other day that will be of interest to those who eat a great deal of fish. It seems that the report should have some bearing on the price of canned salmon this winter. In the northern fisheries pink salmon are being packed to the quantity of the canneries. From Victoria, B. C., come reports that the catch off the coast near the western part of Vancouver Island is expected to be second only to the record catch of 1912. From Haida come news that after two years' absence, a record run of salmon has entered the Margate river. It will be interesting to see what bearing these reports will have on lowering the price of canned salmon in the future. Surely it will not be possible to offer the excuse that salmon is scarce right in the face of these reports.

DEEP SEA FISHING

About 20 members of the Crescent Hill association will journey to West Long Sunday, Sept. 3, in one of John Buck's party boats, where they will embark on Mr. Patrick Hogan's sloop, launch for a sail down the harbor, to the fishing grounds, off Graves Light. The start will be made from the negotiation's room at 4.30, arriving in Lynn in ample time to allow those who wish to attend church service to do so before sailing.

Great rivalry exists as to who will catch the largest fish as the boys are out to defeat President Joseph M. Terry, who has held the honors for the last three trips.

The party is in charge of Mr. Terry and Mr. Dow. Those wishing to attend should not get in touch with them as soon as possible.

"Monte Cristo," Grand, Next Week.

LOCKED IN
People in New York City live like bees in a hive, ants in a hill. You'd think that everyone would know all about their neighbors. But they don't. And don't care to. Above is Dominic Allino. He was kept locked in a dark room for four years according to officers who found him in an East Side garret.

WHAT NEXT IN IRELAND?

(From the New York World)
"Today the Free State burles Michael Collins, and whether his funeral begins a new era of conciliation or will mark the opening of a fresh campaign on the part of the rebels is still in doubt. Tom Hates, who led the band that ambushed the head of the Provisional government, has deserted. The Valera and gone over to the Nationalists. On the other hand, De Valera himself is somewhat vaguely reported, has consented to lead a new irregular offensive in the hope of regaining lost territory. The defection of Hates proves that remorse for the death of Collins weakens the opposition in some quarters. But there have been others among the rebels who take the removal of Collins frankly as a signal for renewed assaults on the Free State. De Valera may be among them."

"Whatever way the tide turns among the irregulars, it is far from certain that the treaty adherents have lost more in leadership than they gain in solidity. Collins was never so honored in his life as in his death; his name has become an effective rallying cry. If his loss serves to cement the loyalty of those who followed him, it may be Michael Collins or his influence that is destined to break the rebellion."

COMMUNICATION

Editor Sun.—Allow me to say that there were just thirteen persons present at the meeting of the McShelley Council, A. A. R. L. Sunday evening and if anybody told you there were more, he did not state the facts.

Yours,
SPECTATOR.

COAL LOADINGS INCREASE

WASHINGTON, Aug. 30.—In the week ending Aug. 15, American railroads reported \$54,219 cars of revenue freight loaded on their lines, or 3539 more than in the previous week, and 41,072 more than in the same week one year ago. Coal and merchandise shipments accounted for most of the increase over the previous week.

WAISTLINES

Now that we have grown accustomed to the longer skirt, fashion authorities tell us to prepare for the higher waistline. At present the long skirt is still popular, but there is an indication that high grade effects may return.

Keep Warm and Keep Well
Perfection Oil Heaters

BETTER GET YOURS NOW

Even though coal is short there is plenty of oil and you can keep your house quite comfortable until late in the fall. We advise getting your Oil Heater now as the demand is big and they are liable to be scarce later.

Hardware & Paint Co.

GERMANS AT SESSION

Delegates Appear Before Reparations Commission to Seek Moratorium

PARIS, Aug. 30.—(By the Associated Press) The reparations commission convened at 10.30 o'clock this morning with the German delegates waiting to appear to present the details of their plan of guarantees on which they hope to be granted a moratorium.

Those in the delegation were Karl Bergmann, former under-secretary of the treasury; Herr Schroeder, and Dr. Fletcher of the finance ministry, and Ambassador Marer.

They declared, before being received by the commission, that the offer made by the Berlin government represents their limit.

The German delegation was called into the meeting soon after the commission assembled, and Herr Schroeder began presenting the German proposal. The meeting still was in session shortly before noon.

Important Agreement

LONDON, Aug. 30.—An important agreement bearing on the reparations

situation was reached at a conference in Berlin last night, participated in by government representatives, prominent industrialists and trade union leaders, says a Central News despatch. The industrialists agreed to supply Germany with the coal and timber necessary for reparations and the labor leaders pledged themselves to augment production by an extensive system of overtime.

POSTAL CABLE CO. ADDS 50,000 MILES OF CABLE

BOSTON, Aug. 30.—The Postal Telegraph-Commercial cable system and the All America Cables, Inc., have entered into an alliance involving 50,000 miles of submarine cable, which not only provides for an exchange of traffic between the two systems but also provides that the agents and officers of each shall act as agents for the other, according to an announcement made yesterday by Clarence MacKay, president of the Postal Telegraph-Commercial Cables. "This agreement," said Mr. MacKay, "is a most forward step in cable communication because it creates the greatest and most comprehensive American cable system extending north to south from all parts of the United States, and Canada to Central and South America, and from east to west from Europe to the Orient, involving a total cable mileage of 50,000 miles, and marks an epoch in the

MAJ. ROWAN HONORED

Decorated for Carrying Pres.

McKinley's "Message to Garcia"

SAN FRANCISCO, Aug. 30.—Nearly a quarter of a century after he carried President McKinley's "message to Garcia," Maj. Andrew S. Rowan, U.S.A., retired, was honored for his exploit, which, it is said, had been lost in every language. Rowan was decorated here yesterday with the Distinguished Service Cross as a token of his deed.

development of American cable communication in that it is distinctly an all-American system. While the two systems which have entered into this agreement will maintain their separate corporate identities, the agreement provides for so harmonious a contract between the two that in actual operation messages will be handled with all the speed facilities possible in a single organization."

Next week, "Monte Cristo," Grand. It will pay you to get The Sun classified adv. built.

VICTROLA STORE In the Basement

Uncle Sam's Inventive Genius Quits

E. G. FISCHER

By HARRY B. HUNT

WASHINGTON, Aug. 30.—Tom Edison is a great man, but—

Over in the Coast and Geodetic Survey department you'll find a lot of folks who'll tell you that E. G. Fischer is just as great.

Fischer has just retired after 35 years as mechanical engineer and instrument maker for one of the most exacting and technical bureaus of the government.

On the payroll at a comparatively small salary, he has saved the country untold wealth by his various inventions. During his period of service he has invented, developed or improved virtually every type of scientific apparatus used in the marine and coast surveys.

Probably Fischer's most noted invention is the United States Tide Predicting Machine No. 2. With it, officials are able to predict the height the tides will reach in the year 2022 as accurately as they predict them for the present year.

An idea of the accuracy and precision of the machine is shown by the fact that it recognizes the effect upon the tides of 55 component influences—the motion of the moon and sun, the periodic variations of other heavenly bodies, the position of the earth on its orbit around the sun, and similar other astronomical changes.

The pull and haul of these influences in the tides are reflected in—

chanically in the motion of dozens of little wheels and sprockets and eccentrics, which combine to move a pencil over a paper ruled to scale, on which it records the exact rise and fall of tides at any given point at any given date.

Charted Two Years Ahead

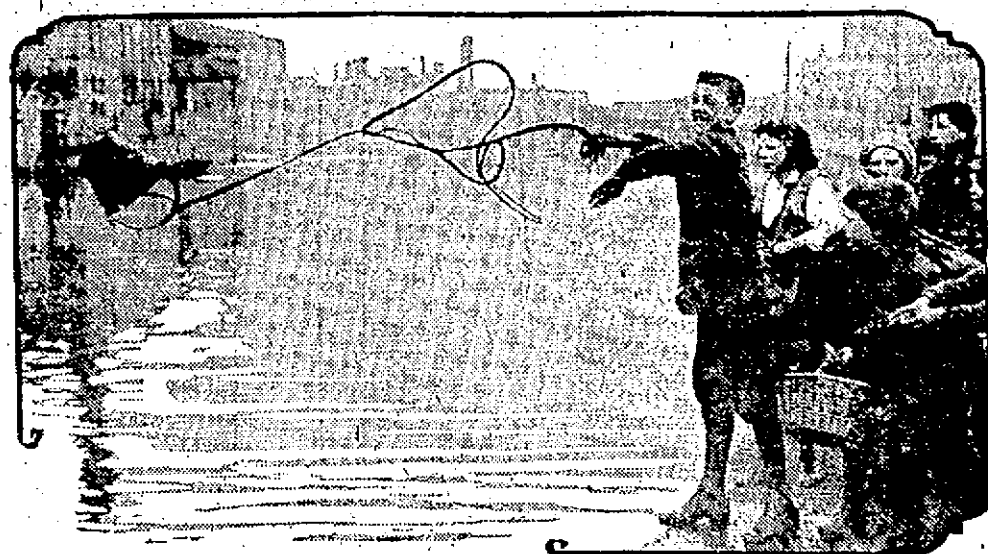

By this machine tidal charts are prepared for navigators showing the rise and fall of tides in all principal ports for two years in advance.

Another recent invention of Fischer's is an artificial sextant, which enables mariners to make observations to locate their latitude and longitude when the horizon is obscured.

Signal lights for use of surveying parties, developed by Fischer, have made new records for long distance, low-powered illumination. With an auto headlight as a reflector, and with three dry cells furnishing the current, the light was seen for 65 miles.

"The secret is the filament," says Fischer. "We concentrated the maximum filament into the smallest possible spot for illumination. The result is that all the light rays are directed parallel, instead of radiating out. One man read a paper by one of these lights two miles away."

Other inventions of Fischer include: a highly accurate geodetic magnetometer, transit micrometer, pressure-sounding tube for ascertaining ocean depths accurately, tide gauges and much other technical equipment.

WILL COAL CRISIS HERE COME TO THIS?

There's a coal shortage in England, too. Here you see children at Leicester fishing for coal in the canal at a point where it is lost while barges are loaded. This situation may find its counterpart in the United States this fall if the mine strike continues.

LABOR DAY AT CAMP WELDMOORS

All girls who have enjoyed the benefits of Camp Weldmoors this season are invited to return Labor day and take part in the program of sports. Camp emblems will be awarded around the campfire. Any girl not at camp

now, who has earned honors this summer, is asked to write to Miss Spencer stating number of points earned and manner of earning them, lest someone be overlooked.

An all-day program has been planned for Labor day, including swimming and sports of all kinds. The Nashua car, which goes past the camp entrance connects at Lakeview with the

Lakeview car leaving the square on the hour.

MEMORIAL TO JUSTICE WHITE
WASHINGTON, Aug. 30.—Erection in Washington of a bronze statue of Edward D. White, long chief justice of the United States, at a cost of \$100,000, was proposed in a resolution introduced yesterday by Representative Hogan, republican, New York.

IRISH IRREGULARS CUT ATLANTIC CABLES

DUBLIN, Aug. 30.—(By Associated Press) An official communique issued by the Southwestern Free State command at Limerick stated that a boatload of Irish irregulars arrived in Valentia harbor yesterday afternoon and proceeded to cut the trans-Atlantic cables.

They had cut one when National troops arrived on the scene, whereupon the irregulars departed. Erskine Childers was directing the irregulars, said the communique.

Free State Looks to Four Leaders

DUBLIN, Aug. 30.—By Associated Press)—The Irish Free State now looks to Richard Mulcahy, William T. Cosgrave, Owen O'Duffy and John J. MacKeon to carry on the work begun by Arthur Griffith and Michael Collins, according to all indications of the trend of opinion as to the new leadership.

Monday's tribute to Collins delivered by Gens. Mulcahy and O'Duffy seem to have created a fine impression among the rank and file of the people supporting the Free State as indicative of the determination of the army to proceed unflinchingly with the task of restoring order.

Gen. Mulcahy, the new commander, is lauded by his friends as capable and determined, with a touch of the poetic in his character which heightens his appeal to his fellow Irishmen.

FOR DANCING

For dancing the bouffant type of frock is sponsored by the younger set. Frequently with heavy are shoulders, and small bouquets of velvet or silk flowers, and ribbons are used as trimmings.

NUT CAKES
By BERTHA SHAPLEIGH
Cooking Authority, Columbia University2 eggs
1 cup brown sugar
1/2 teaspoon salt
1/2 teaspoon baking powder
1 cup flour
1 cup pecan meats cut in small pieces
Beat eggs slightly, add brown sugar and beat together. Stir baking powder, salt and flour. Stir lightly into eggs and sugar. Add nut meats and bake in small shallow buttered tin in a moderate oven 20 minutes. This quantity will make from 10 to 21, depending upon the size of the tin.

NEW STRENGTH AND ENERGY

For Weak, Nervous People

Elvita Pills Enrich the Blood, Strengthen the Nerves, Build Up Physical Power, Give Vigor and Nerve Power to Nervous, Tired Out, Despondent People.

Elvita Pills have stood the test for over 50 years. Thousands praise them for rundown condition, general debility, nervous prostration, nervous weakness, nervous exhaustion, mental depression and unstrung nerves, caused by the influence of or from overindulgence in alcohol, tobacco or excesses of any kind.

Elvita Bromo-Gentian Comp. is a bitter tonic. It stimulates the appetite and aids digestion—25 years in private practice has proven it to be exceedingly valuable in nervous dyspepsia and nervous or irritable stomachs. A teaspoonful or two taken before retiring helps to induce a restful sleep. Sold at druggists, \$1 a bottle.

Elvita Drug Co.

The Famous Elvita Remedies are sold in Lowell by Sam McCord, 238 Merrimack St., Fred Howard, 197 Center St., Green's Drug Store, 3 Merrimack St. and all reliable druggists.

LOYAL VICTORIA LODGE

At a recent meeting of Loyal Victoria lodge, it was announced that the organization had been notified to vacate its premises in E. of T. hall and accordingly new quarters have been secured in Odd Fellows' building, Middlesex street, where the next meeting will be held. The meeting was presided over by Lillian Emsey and routine business was transacted.

VELVET HATS

Many of the smartest black velvet hats for fall wear are quite without any trimming, their chic depending entirely upon their lines.

Gone—that three-times-a-day-in-the-dish-pan-look

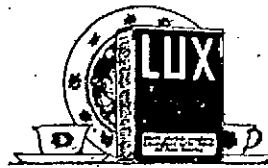

Lux leaves your china spotlessly clean and does not redden or coarsen hands

YOU wouldn't use a strong, alkaline soap on your fine silks. Don't use it on your hands. They are as sensitive as the most delicate silk to harsh soap.

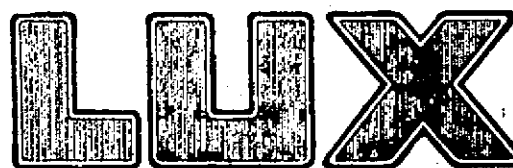

Lux contains no free alkali or any other ingredient that would harm your skin. Three times a day you can wash dishes in the gentle Lux suds without ruining your hands.

Women themselves discovered this use for Lux. Women who for years had been getting such satisfaction from Lux for silks and woollens tried it for washing dishes.

Thousands of letters have come in to us saying that Lux suds leave your china beautifully clean and at no cost to your hands, and asking us why we never mentioned it. Start today using Lux for your dishes. Lever Bros. Co., Cambridge, Mass.

Just a tablespoon to a pan. A single package does 45 dish washings—all the dishes for more than two weeks.

FOR WASHING DISHES

Lux leaves your glassware sparkling without a trace of soapy film—your silver lustrous, your china spotlessly clean.

SHE LAUGHS AT DEATH

Just a month after she had seen her brother and her fiancé killed in an auto race in which she was driving a car, Frances Cline, 23, of New Orleans, went back into the game and won a race on the dirt track at Hammond, La.

New Haven Says Strike "About Over"

NEW HAVEN, Conn., Aug. 29.—The N. Y. N. H. & H. R. R. today claimed that the shopmen's strike on its system "is about over," that in some places it has the quota of workers' places filled and at others almost filled. The railroad statement claimed that 2595 more skilled men were at work today than yesterday and said "this total includes a large number of old employees who went on strike and have re-entered the service of the railroad company, realizing that the strike is about over."

Killed in Battle For Love of Stenographer

ROCHESTER, N. Y., Aug. 29.—Police today have spread a dragnet for Owen D. Dewitt, wealthy real estate operator, who is sought as the alleged slayer of Frank J. O'Connor, a tailor, yesterday, in the latter's fashionable store here. The killing was done, it was said, when they battled for the love of a stenographer.

Nation-wide Disintegration of Strike

NEW YORK, Aug. 29.—Declaring that the breakup of negotiations between railroads and shop crafts' representatives last week has brought on a nation-wide disintegration of the strike, Robert S. Binkerd, assistant chairman of the Association of Railway Executives today announced that 6499 men were hired by the roads of the nation last Saturday within 24 hours after negotiations ended.

BRIEF BUT IMPORTANT WIRE DESPATCHES

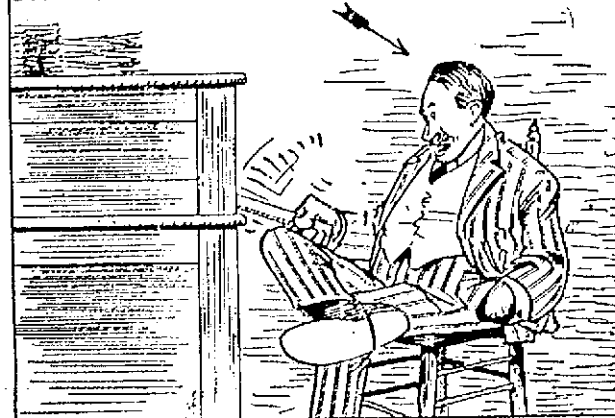

PORTLAND, Me., Aug. 29.—The Eastern Seaboard Lines today announced a reduction of practically 5 per cent. in freight rates between New York and Portland, effective September 5.

WORCESTER, Aug. 29.—A special meeting of stockholders of the Worcester Wire Spinning Corporation, was called today for Sept. 8 in the Worcester headquarters of the company, to ratify the action of the board of directors in arranging to purchase the capital stock of the American Wire Fabric Co. and to authorize the sale of \$1,775,000 ten-year 7½ convertible gold notes to pay for the stock of the American Wire Fabric Co.

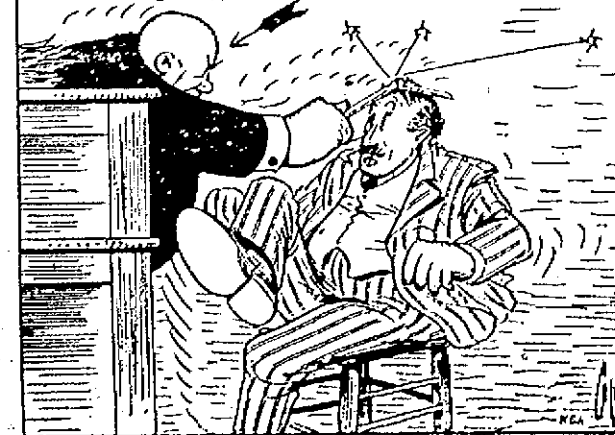

GENEVA, Aug. 29.—(By the Associated Press.)—The meeting of the Council of the League of Nations has been postponed from today until September 1.

GASSAWAY DRIFTS INTO A FLOOD OF CONVERSATION FROM A FLOATING JAY WALKER -

FORD PLANTS TO CLOSE DOWN SEPT. 16

DETROIT, Aug. 29.—(By the Associated Press.)—Unless the Ford Motor Co. receives coal from an unexpected source, it will close all its manufacturing departments in the Detroit district, Sept. 16.

This statement was made at Mr. Ford's office today, in answer to a rumor in circulation in Detroit and elsewhere, to the effect that a way had been found out of the company's fuel problem.

When they heard a report to the effect that the federal fuel committee was considering steps to provide coal for the Ford Co. at the normal price, sources close to Mr. Ford asserted they had not been officially advised with regard to the matter and added "nothing has been done yet to sell us enough coal to operate at anything but profiteering prices."

Mr. Ford, it was reiterated, is firm in his conviction that for him to pay increased prices for coal at this time, would have the effect of keeping coal prices up at the expense of the manufacturers and the households of the country.

WHY DO YOU THINK YOU'D LIKE TO RUN A NURSERY?

BECAUSE IT'S A GROWING BUSINESS

CHARGED WITH MURDER OF HOUSEKEEPER

YARMOUTH, N. S., Aug. 29.—Omar Roberts, a 60-year-old widower, was arrested today charged with the murder of Flora Gray, his 19-year-old housekeeper, who was found lying from burns in a fire which destroyed Roberts' home last night. The girl died after giving a statement in which she accused Roberts, the police said.

According to the police, Roberts drove to a neighbor's house last night and told him that the housekeeper had been burned to death. Other neighbors who hurried to Roberts' house a few moments later, found the girl in a smoke-filled room, beneath a bed, they said. Her dying statement, the police said, accused Roberts of entering her room after she had retired. When she fought him, the police said, he threw gasoline about the bed and lighted it.

COMRADES VOLUNTEER TO CONTRIBUTE SKIN

SPRINGFIELD, Aug. 29.—Four comrades of Private William E. Davis of the 101st motor transport company, who were critically burned last month at Camp Devens, while extinguishing a gasoline fire, have volunteered to contribute two square feet of skin which is to be grafted to Davis' body in the hope of saving his life and preventing deformity. The men chosen were from a large number of volunteers among Davis' comrades. Davis' act in extinguishing the fire saved a number of trucks from destruction. Davis has been commended by Governor Cox.

BIG MEN

have always exercised a large influence over the Financial Markets. This is often manifested not only in the fluctuations of individual issues but in at least the minor movements of the general list.

If a big man dies, or if it becomes known he will

GO TO EUROPE

there is frequently an immediate reflection in quotations; and someone has said, "If you would know markets, know the men who make them."

The outstanding feature of our weekly market news service just now is a series of intimate, human interest articles on

"STOCK MARKET OPERATORS"

sketching the careers of such men as James H. Keene, Jay Gould and others of heavy caliber in Stock Market dealings.

A study of these articles may be as profitable as any "news," in attempting to analyze the underlying reasons for market happenings—although Redmond's Financial Weekly, in which "STOCK MARKET OPERATORS" is appearing, also contains a broad selection of the latest, more significant "NEWS" on active issues.

An excellent Market Letter with an unusually attractive feature. Copies on Request.
